Family Planning Clinic - cont'd from page 1 .....  
be referred to one of the two Abortion Committees  
in the city. The abortion, if it is granted, would  
be performed in hospital by an appropriate special-  
ist.

I would hope that more adequate information  
about contraceptives and freer access to them,  
might prevent the necessity of abortion in some  
cases. In this situation there is no doubt that  
"an ounce of prevention is worth a pound of cure".
