

School Needs - cont'd from page 12 .....

vantages of specialization and at the same time provide the student with a broader technical experience than he has had, we should continue with the integration of technical courses in 'technologies'. With the addition of drafting we would then offer the following: electricity and electronics, electrical technology, mechanical drafting and welding, mechanical technology, auto mechanics and heat engines and automotive technology.

"The present boys' occupations and girls' occupations are being re-structured into what will be known as intermediate technology and their courses would permit those who have the aptitude and the ambition to fit into the regular program after one or two years of secondary school.

"The present facilities are quite adequate for the boys' and girls' intermediate technology programs.

"The school has very little to offer the girls in the realm of vocational subjects. After careful study of present facilities and consultation with Department of Education officials it's been concluded that home economics should be offered to the girls at the Terrace Bay campus. The cost, as indicated under capital equipment, will be minimal. It is as important for the girls to be able to take courses in which their interest lies as it is for boys to take auto mechanics or welding.

"Girls should have equal opportunity. And the facilities are there waiting to be fully utilized. We are prepared to administer the program."

It was unanimously carried that the Lake Superior Board of Education consider the introduction of home economics in the Terrace Bay campus for September, 1972.

Suggestions were presented regarding vocational education on a divisional basis.

The director of education, J. E. Morgan, was asked to arrange a meeting as early in the new year as possible for the committee to discuss plans with M. Vasko, program consultant.

John Kelly, accompanied by the head of the Marathon high school commercial department presented a proposal for renting the key punch for part of the year, having it moved from school to school for a period of possibly six weeks at a time. A meeting will be arranged to consider this.

The Lake Superior Board of Education has arranged a principals' meeting for Monday, Feb. 28-29. R. R. Steele, regional director of education, and four resource persons from the Department of Education will conduct the workshop.

Principals of elementary, secondary, and separate schools in the Lake Superior area, Nipigon-Red Rock and Geraldton have been invited to this event, which it is expected will be held in Terrace Bay.

The event began with a buffet dinner and following the installation a cabaret evening was enjoyed, with music provided by George Churney, Bill McGraw and Len Pineault.

A highlight of the evening was presentation of a cheque for \$1,000 by Mrs. Georgina Davis, auxiliary president, to Gerry Nicol, president of the Legion.

Standing, from left, Mrs. Christina Morris, assistant warden; Mrs. June Dukes, warden and Mrs. Earline Johnson, secretary.

New Legion Executive - Gerry Nicol, president, seated left, poses with other members of executive. Beside Mr. Nicol is installing officer Walter Dukes. Sergeant-at-arms for the installation was Frank McKenna, standing at left, and Larry Bourke, standing right, was elected secretary-treasurer.

SCHREIBER TOWN TOPICS

One of the happiest family reunions during the holidays was that of the Paradis family attended by Mrs. Gertrude Noble; Sudbury, Edmund Paradis; Toronto, Mr. and Mrs. Bernard Paradis, Mr. and Mrs. Charlie Pearson (Retta Paradis), Mr. and Mrs. Bill Paradis, and Mr. and Mrs. Wayen Wilsen (Cecile Paradis). They dined from house to house, had parties, and met old friends of their childhood and laughed over long-ago escapades.
