A group of young fellows Andre Nicol, Bud Crocker, Ronald Legault, Bob Elvish and Brother Art Olivier of Thunder Bay were in the village Sunday interviewing some villagers regarding the development of the waterfront in regards to making it attractive to tourists and revitalize the village as it has great potentials for a holiday and camping grounds and ideal for a boat anchorage. Andre Nicol announced that money for the project was in the planning stage and that with the co-operation of the villagers who live here now that the town could be made attractive with shoreline clean up, docks repaired, hay cut and buildings redecorated. Old time stores and novelty shops opened again. They hope to hold a meeting here when the weather is warmer and have an idea that a weekly news letter would keep everyone interested. In the future there could be a winter sports program - skating, tobogaganing, curling, skiing, snowshoeing etc.
