The financial report for 1971 was presented and accepted and copies sent to the Grants' Department, Provincial Director Library Services, and Northwestern Ontario Library System

They were audit ed by W.T. Wallace and found in order.

Thirteen meetings were held by the board last year. The library has a circulation of 40,400; registered borrowers are listed at 410; there are 5,039 volumes on the shelves; 1200 books were borrowed from the Northwestern Regional Library and 25 from the Inter-Library Loans.

At present the insurance amounts to \$5,500.00 but it was agreed, this must be increased.

The board's policy is to provide not only education but entertainment for all ages - the very young, the juvenile, teenage, and adult. The board is particularly concerned with providing reading material for the senior citizens who have through many years supported the library by both taxes and interest - Schreiber having an unprecedented number of people who have chosen to remain in the town after retirement.

A motion of appreciation was made to Mrs. McGrath for building up the Fine Arts section, with some material still on order. The board is grateful too to the Sault Ste Marie public library, who in response to a request, offered valuable advice on the selection of material for the art section.
