Super Week - cont'd

staff, provided that a few changes are made. One is to have Super Week about a month earlier, so that it does not interfere with year-end work or give students (whose spares became full mornings or afternoons out of school) the idea that the school year is already over. Secondly, we are entertaining the idea of having a set of Super-Days, in effect spreading One Super Week over a period of three or four weeks. If most plans are fairly flexible, then we can take advantage of good weather, and prevent an accumulation of too many field trips, films and projects in a single week.

Both teachers and students at Terrace Bay Campus hope to repeat Super Week, or something similar to it next year. Hopefully other schools may find this a useful method of increasing the flexibility of their programmes.
