Development of Facilities

Some people may have noticed some development taking place at the Swimming Pool and Athletic Field. The Terrace Bay Recreation Committee will be developing a Beginners Pool in the northwest section of the present pool. This Beginners Pool will have its own filter system, chlorinating system and heating system, which will meet all the requirements of the Department of Health.

Once completed, the swimming programme will be broadened to include the younger children who presently cannot take classes in the large pool. The Beginners pool will also provide an area for the younger children to go public swimming. It is hoped that this facility will be completed by the end of July.
