

Development of Facilities - cont'd from page 9

The Terrace Bay Recreation Committee along with the Lake Superior School Board are developing a multi-purpose play area between the Terrace Bay Campus and the Terrace Bay Public School. This athletic field when completed will accommodate such sports as Track and Field events, Soccer, Football, Field Hockey and Fastball.

Present plans call for the organization of some volunteers during the month of July to attempt to complete this facility.

The section of the field located inside the track area will be fertilized and reseeded in early July. It is hoped that people of this community will cooperate by not using this section of the playing area for the summer.

TUNDRA in Terrace Bay This Saturday:

A reminder that a youth dance will be held in the Terrace Bay arena this coming Saturday, July 1st. This youth dance is being planned in conjunction with the CANADA DAY activities and as a result, admission will be below the normal price charged for this type of dance. TUNDRA has been booked through the same agency in Duluth that brought us SOUND INCORPORATED last summer. TUNDRA is rated to be an excellent group and all teenagers should make an attempt to attend the dance. Admission for this dance will be .75¢ per person.

Coming Events:

Saturday, July 1st - Canada Day activities
Saturday, July 1st - Youth Dance, Terrace Bay Arena, 9 to 12 p.n.
