Mrs. O'Connor, who was born and married in Rossport, has lived in Schreiber for 63 years.

50th WEDDING ANNIVERSARY CELEBRATED

Relations and friends from Schreiber and Terrace Bay thronged the home of Mr. and Mrs. Jim Smart on November 3 to celebrate their 50th wedding anniversary.

Mr. and Mrs. Smart, nee Barbara Robertson, were married Leslie, Fife, Scotland.

They came to Schreiber, with their family, in April 1949 and were soon involved in community projects. Mrs. Smart was one of the "creamers" -- the small committee who, by various small projects, succeeded eventually in having an artificial ice plant installed in the local arena. She still takes an active part in raising funds for other improvements in the rink and works in the ladies' auxiliary to the Royal Canadian Legion, Br. 109, now the 2nd vice president of the auxiliary. Mr. Smart, after his retirement from the Kimberley-Clark plant in Terrace Bay, has worked as a steward in the Legion in Schreiber.

In addition to the many personal gifts received, Mrs. Jim Crook, on behalf of friends, presented a Money Tree to the Smarts. The wedding cake for the occasion was made by Miss Jean Hopper.

Assisting Mrs. Smart in serving lunch were Mrs. Robert Hopper, her granddaughter, and Mrs. Jim Crook.

Mr. and Mrs. Smart have one son, Bill, five grandchildren and three great grandchildren.

The Schreiber Arts and Crafts Club have begun their Winter Season, electing the following officers: Mrs. Bonnie Dye, Presidnet; Mrs. Betty St. Amand, secretary; Mrs. Lila Morrow, treasurer. Meetings are held Monday nights, anyone interested is cordially invited to join.

There are four basic types of mutual funds available - growth funds, growth-income funds, balanced funds and income funds. Let's take a closer look at how each operates.

Growth funds, the most aggressive of the four, are most popular with a portfolio of nearly all common stocks. These funds are managed to accumulate money

through growth, not current income.

A growth-income fund has a dual objective of producing growth of capital with a reasonable income. Portfolios include some "blue-chips" and a few bonds or other "fixed-dollar" securities which tend to stabilize the ups and downs of the more volatile
