## NEW EDUCATIONAL TELEVISION SERVICE

Terrace Bay has joined Ontario's educational television cable network as of December 1st, 1972.

An agreement between the Ontario Educational Communications Authority and Lakeshore Community Television Limited is providing local service on Channel 13.

The new Terrace Bay service offers ten hours per day of educational and informative programming aimed at all age and interest groups in the community. Educational television programming is broadcast on Channel 13, 10:00 a.m. to 8:00 p.m. daily.

Euclid Forgues, principal of Lake Superior High School in Terrace Bay and community organizer for the cable extension, is delighted with the new educational service as it will provide a greater variety of television programming to the community.

"It will also decentralize program broadcasting allowing individual access to educational television programming when it is needed" Mr. Forgues added, "We will now have some flexibility in our choice of programs."

A large portion of the programming on the new channel is aimed at the out-of-school audience, although there will also be programs of interest to students studying Ontario curriculum.

Terrace Bay's channel employs a new type of television network distribution called "bicycling". Instead of a provincial transmission system, OECA uses video-tape.

## COUNCIL QUOTES

Terrace Bay Town Council met for their last Council meeting for this term in Council chambers on Tuesday night. Reeve Cavanaugh Chaired the meeting, with Councillors, Bray, Kennedy and Sinotte in attendance.

Reeve Cavanaugh welcomed Recreation Director Gerry Dupas and Recreation Committee member John Pedersen, who were on hand to report on their discussion with Kimberly-Clark, regarding preventative maintenance programs to be carried out by Recreation Centre personnel. For repairs, qualified local people might have to be engaged.

Minutes were adopted as read.
