

Board Meeting - cont'd from pg I2.....

was decided that the budget committee would investigate and make recommendations regarding the costs of business administration in this division.

Trustee G. Fairservice requested that a study be made upon possible methods of assisting in transportation to school of children who are temporarily incapacitated due to accidents.

The next meeting of the Board will be held in the Lake Superior School, Schreiber Campus on Saturday, February 10, 1973.

COLD WEATHER HAZARD

Consumers' Association of Canada warns that there can be a serious danger of frostbite when handling volatile fuels, such as gasoline, in cold weather. If spilled on clothes or skin, the liquid will take on the temperature of the outside air, which may be as low as -30F. Evaporation from clothing and skin will further reduce the temperature. Always avoid

spillage of volatile fuels in cold weather; if such liquid should come in contact with skin or clothing, remove it immediately. CAC headquarters is located at 100 Gloucester Street, Ottawa.
