## TODAY'S CHILD

BY HELEN ALLEN

THE TORONTO SUN SYNDICATE

Dick is an appealing youngster with dark blonde hair, brown eyes and fair skin. When he first came into the care of the Children's Aid Society he was diagnosed as microcephalic, which means his brain is smaller than normal. He is in excellent health and has good co-ordination.

In Grade One, Dick thoroughly enjoys school and sets out eagerly every day. He will likely continue his education in opportunity classes.

Dick is shy with adults but talkative and helpful when he knows people. He is eager to win approval. Dick has good relations with children. He is not submissive but neither is he a leader.

Dick plays minor hockey enthusiastically and likes wrestling with his foster brother. He belongs to the "Y" where he joins whole-heartedly in all the activities.

He needs parents who are easy and open in expressing affection and who are more concerned with a pleasant personality than with scholarship. It is hoped these parents will want Dick to maintain contact with a nine-year-old brother.

To inquire about adopting Dick, please write to Today's Child, Box 888, Station K, Toronto M4P 2H2. For general adoption information, please contact your local Children's Aid Society.
