

Minor Ball Program - cont'd .....

program. Let's hear from you SOON!

GAMES ROOM SUPERVISOR REQUIRED:

A reminder that anyone interested in being employed as a Games Room supervisor should leave their name, telephone number and address at the Recreation Office.

BEGINNERS POOL:

At the time of this write-up, it appears that the beginners pool will be available for use by the public starting Monday, June 25th.

This facility will enable our department to offer public swimming to younger children who in the past could not use the 25 metre pool because of their height.

The beginners pool will also assist in our present instructional program by allowing shorter children to take part in the program.

The pool is 20 feet by 30 feet and is 18 inches in depth at the shallow end and 30 inches in depth at the deep end.

Parents will be allowed to accompany their children while using the beginners pool. The only additional regulation that must be followed is that no shoes be worn on the deck. Other regulations that apply to the use of the 25 meter pool will also apply to the beginners pool.
