ice station sometime last month. But last week police reported that a man asked a priest to pick up a package left in a confessional booth in a downtown church. The package was picked up and, lo and behold, it contained \$133 ... and a letter of apology.

A Kansas state prison convict should have known better than to try to escape on Friday the 13th earlier this month. He bumped into the warden five minutes after escaping, and two minutes later the warden had flagged down a county sheriff's car and had the inmate arrested.

RECREATION NEWS

PLAYGROUND NEWS:

The third week of Playground '73 was a busy one, with the weather co-operating for all but one of the special events. Thursday afternoon the 7-9 year old children went swimming at White Sand Lake and Friday afternoon the 5 and 6 year old children headed out to the same lake to swim. Special thanks to the parents who drove for both events and who risked their back seats by agreeing to transport home jars of tadpoles as well as kids.

"Treasure Island" was the movie shown at six o'clock Friday evening for 54 7-12 year old children. We would like to thank Mr. C. Wise for being the projectionist for the evening.

Friday evening after the movie, the leaders with the added supervision of Linda Melnyk Danny Ferguson, Ernest Theriault and Howard Kettle, took the 10-12 year old boys to Rainbow Falls for an overnight camping trip, although very few hours were spent actually sleeping. Everyone, including the leaders, were bright-eyed and busy-tailed the next morning and ready for a day of swimming, hiking and cooking. Special thanks also to the parents who provided rides and tents for this event.

Next week is Australian Christmas at Summer Playground, so all the kids who want to see Santa early this year should join in on the week of festivities.

This Friday night there will be a pre-teen Record Dance for all kids 10-15 years continued page 8
