

TRAILER TALK

CHECK TRAILER TIRES OFTEN. KEEP WELL-INFLATED... ABOUT 60 lbs AVERAGE

AT REGULAR INTERVALS CHECK LOAD FASTENINGS, HITCH, SAFETY CHAINS, LIGHTS, TIRES, BEARINGS AND LUGS.

DON'T OVERLOAD YOUR TRAILER. FOR STABILITY, FRONT END SHOULD BEAR ABOUT 10% **PLUS 10%** MORE OF WEIGHT.

STRAP LOAD DOWN FIRMLY-

Beware of

SUDDEN STOPS-

BECAUSE OF GREATER LENGTH AND WEIGHT OF CAR AND TRAILER IT TAKES MUCH **LONGER** TO STOP-

Shane

HELP OTHER DRIVERS TO PASS

IF YOU'RE HOLDING UP TRAFFIC, SIGNAL, PULL OVER AND LET OTHERS PASS.

Don't lose your BEARINGS!

LACK OF LUBRICATION CAN CAUSE WHEEL BEARING FAILURE, SO CHECK FOR LUBRICANT LOSS. AND **DON'T** BACK BOAT TRAILER INTO WATER WHEN BEARINGS ARE HOT.
