### Steel River Curve - continued .....

curve and vehicles, because of excessive curve entry speeds, are pushed by centrifugal forces to the outside of the curve onto the shoulder, where drivers lose control of their vehicles.

Since the presently established traffic control does not seem to have sufficient impact, we have now recommended that the curve be more conspicuously marked by road-edge delineators, the advance warning signs be changed, steel beam guide rails be erected and that the road shoulder on the outside of the curve be paved in what we found was the most critical area.

We are hopeful that our measures will be instrumental in alleviating the present accident situation and we thank you for bringing this matter to our attention.

### SHOWER HONOURS BRIDE-ELECT

A very well attended Bridal Shower was held at the Moose Hall on Tuesday evening, July 31, in honour of Miss Marilyn Benko, whose wedding will take place on August 11th.

Marilyn and her mother were greeted at the door and each presented with a corsage. Marilyn was seated under a canopy of balloons filled with confetti, which showered down on her.

She was assisted in opening her gifts by her

sister Valerie. Mrs. Anne Stachiw made a beautiful bonnet from the colourful bows on the gifts.

Tea and coffee and a delicious lunch were served from a head table centred by a wedding doll and a cake made like a pair of intertwined wedding rings.

Hostesses for the shower were Mesdames S. Sadowick, M. Woodruff, A. Pelto, A. Daley, J. Roberts, G. Salesse and A. Szpak.

First of all, you have to have a lot of dough to even think about joining the tour. Also you have to be a whiz of a golfer and you must first qualify to join the tour. The only way to follow the big leaguers like Nicklaus around the U.S. is through the Tournament Players School of the Professional Golfers Association at Palm Beach Gardens, Fla.

Word is that every summer over 600 guys apply for the tour at the school and only 25
