

Council Quotes - continued

A verbal complaint given to Councillor Hale of the excessive noise and late hour of the bread truck unloading on MacDonald Avenue was brought to Councils attention. A letter requesting that this procedure be done elsewhere in town as to not any residents will be sent to the bread company, with copies going to the bread man in town and the owner of the premises.

Another discussing took place regarding the condition of the sidewalk on Simcoe Plaza between the Bank and Costa's. The owners of these sidewalks will be notified of their poor condition and requested to upgrade same.

A short discussion was held on the work that had to be done on Lakeview Drive by the garage compound where the town has its storm drainage and sewage drainage. This work has cost the township thousands of dollars and simply because of a few youngsters who filled the pipe drains with hockey sticks and other debris. This work is now completed at a great expense to the taxpayers. Possibly if your children play at the "drop" you could warn them of the damage they can cause by filling these pipes.

Ending the Council meeting a final discussion was held on the condition of certain street signs in town and Councillor Megraw, public works will do a survey on this matter.
