

Sports Slants - continued .....

St. Louis Cardinals, leaders of the National League's east division in baseball were involved in a similar playoff setup, they'd be lucky to be in the playoffs.

The Cards lead their division, but there are nine other teams in the majors who have better records. Cardinals, who had a two-game lead on Pittsburgh Pirates as of last Tuesday, were the only team in that division with a better than .500 record. They were 66-64 for a mediocre .508 mark. Four of the six teams in the NL west division were over .500, just two in the American League west and four teams in the AL east.

An example of how poor that National League east has been ... Montreal Expos, who are still definite threats for the NL east division playoff spot -- they were 4 1/2 games behind the Cardinals as of last Tuesday -- would have ranked 17th among the 24 teams in the two major leagues.

Would be nice to see the Expos win that NL eastern crown, but wouldn't bet much more than a plugged nickel in the playoffs !!!

LAKE SUPERIOR HIGH SCHOOL FACULTY

Ingot Cake?

A steelworker's ingot has a lot in common with a housewife's angel food cake. Both are prepared from a precise recipe, cooked in ovens, and eventually removed from molds after cooling.

A Lot Of Sediment!

If all the 491,000,000 tons of suspended sediment deposited in the oceans each year from the conterminous United States were piled on the Mall in Washington, D.C., the sediment would reach about 1,400 feet, or 2 1/2 times as high as the Washington Monument.
