## ONTARIO HYDRO APPROVES NEW RATES FOR TERRACE BAY HYDRO SYSTEM

Terrace Bay Hydro today announced that Ontario Hydro has approved a new rate schedule for utility customers.

Under the new schedule, residential customers using 1300 kilowatthours of electricity a month on the metered electric water heater schedule will pay \$16.73 instead of \$14.55.

Continued inflation and increasing cost of power purchased from Ontario Hydro has made the rate change necessary.

The adjustments will enable the Hydro System to maintain a reasonable financial position in the forthcoming year and provide for the growing electrical needs of the community.

The new rates will be in effect as of October 1st, 1973.
