## TODAY'S CHILD

BY HELEN ALLEN

THE TORONTO SUN SYNDICATE

French Canadian in descent, Tony is five years old. He was born prematurely and though he has not had any of the health problems sometimes associated with prematurity, his physical and mental development are behind the average.

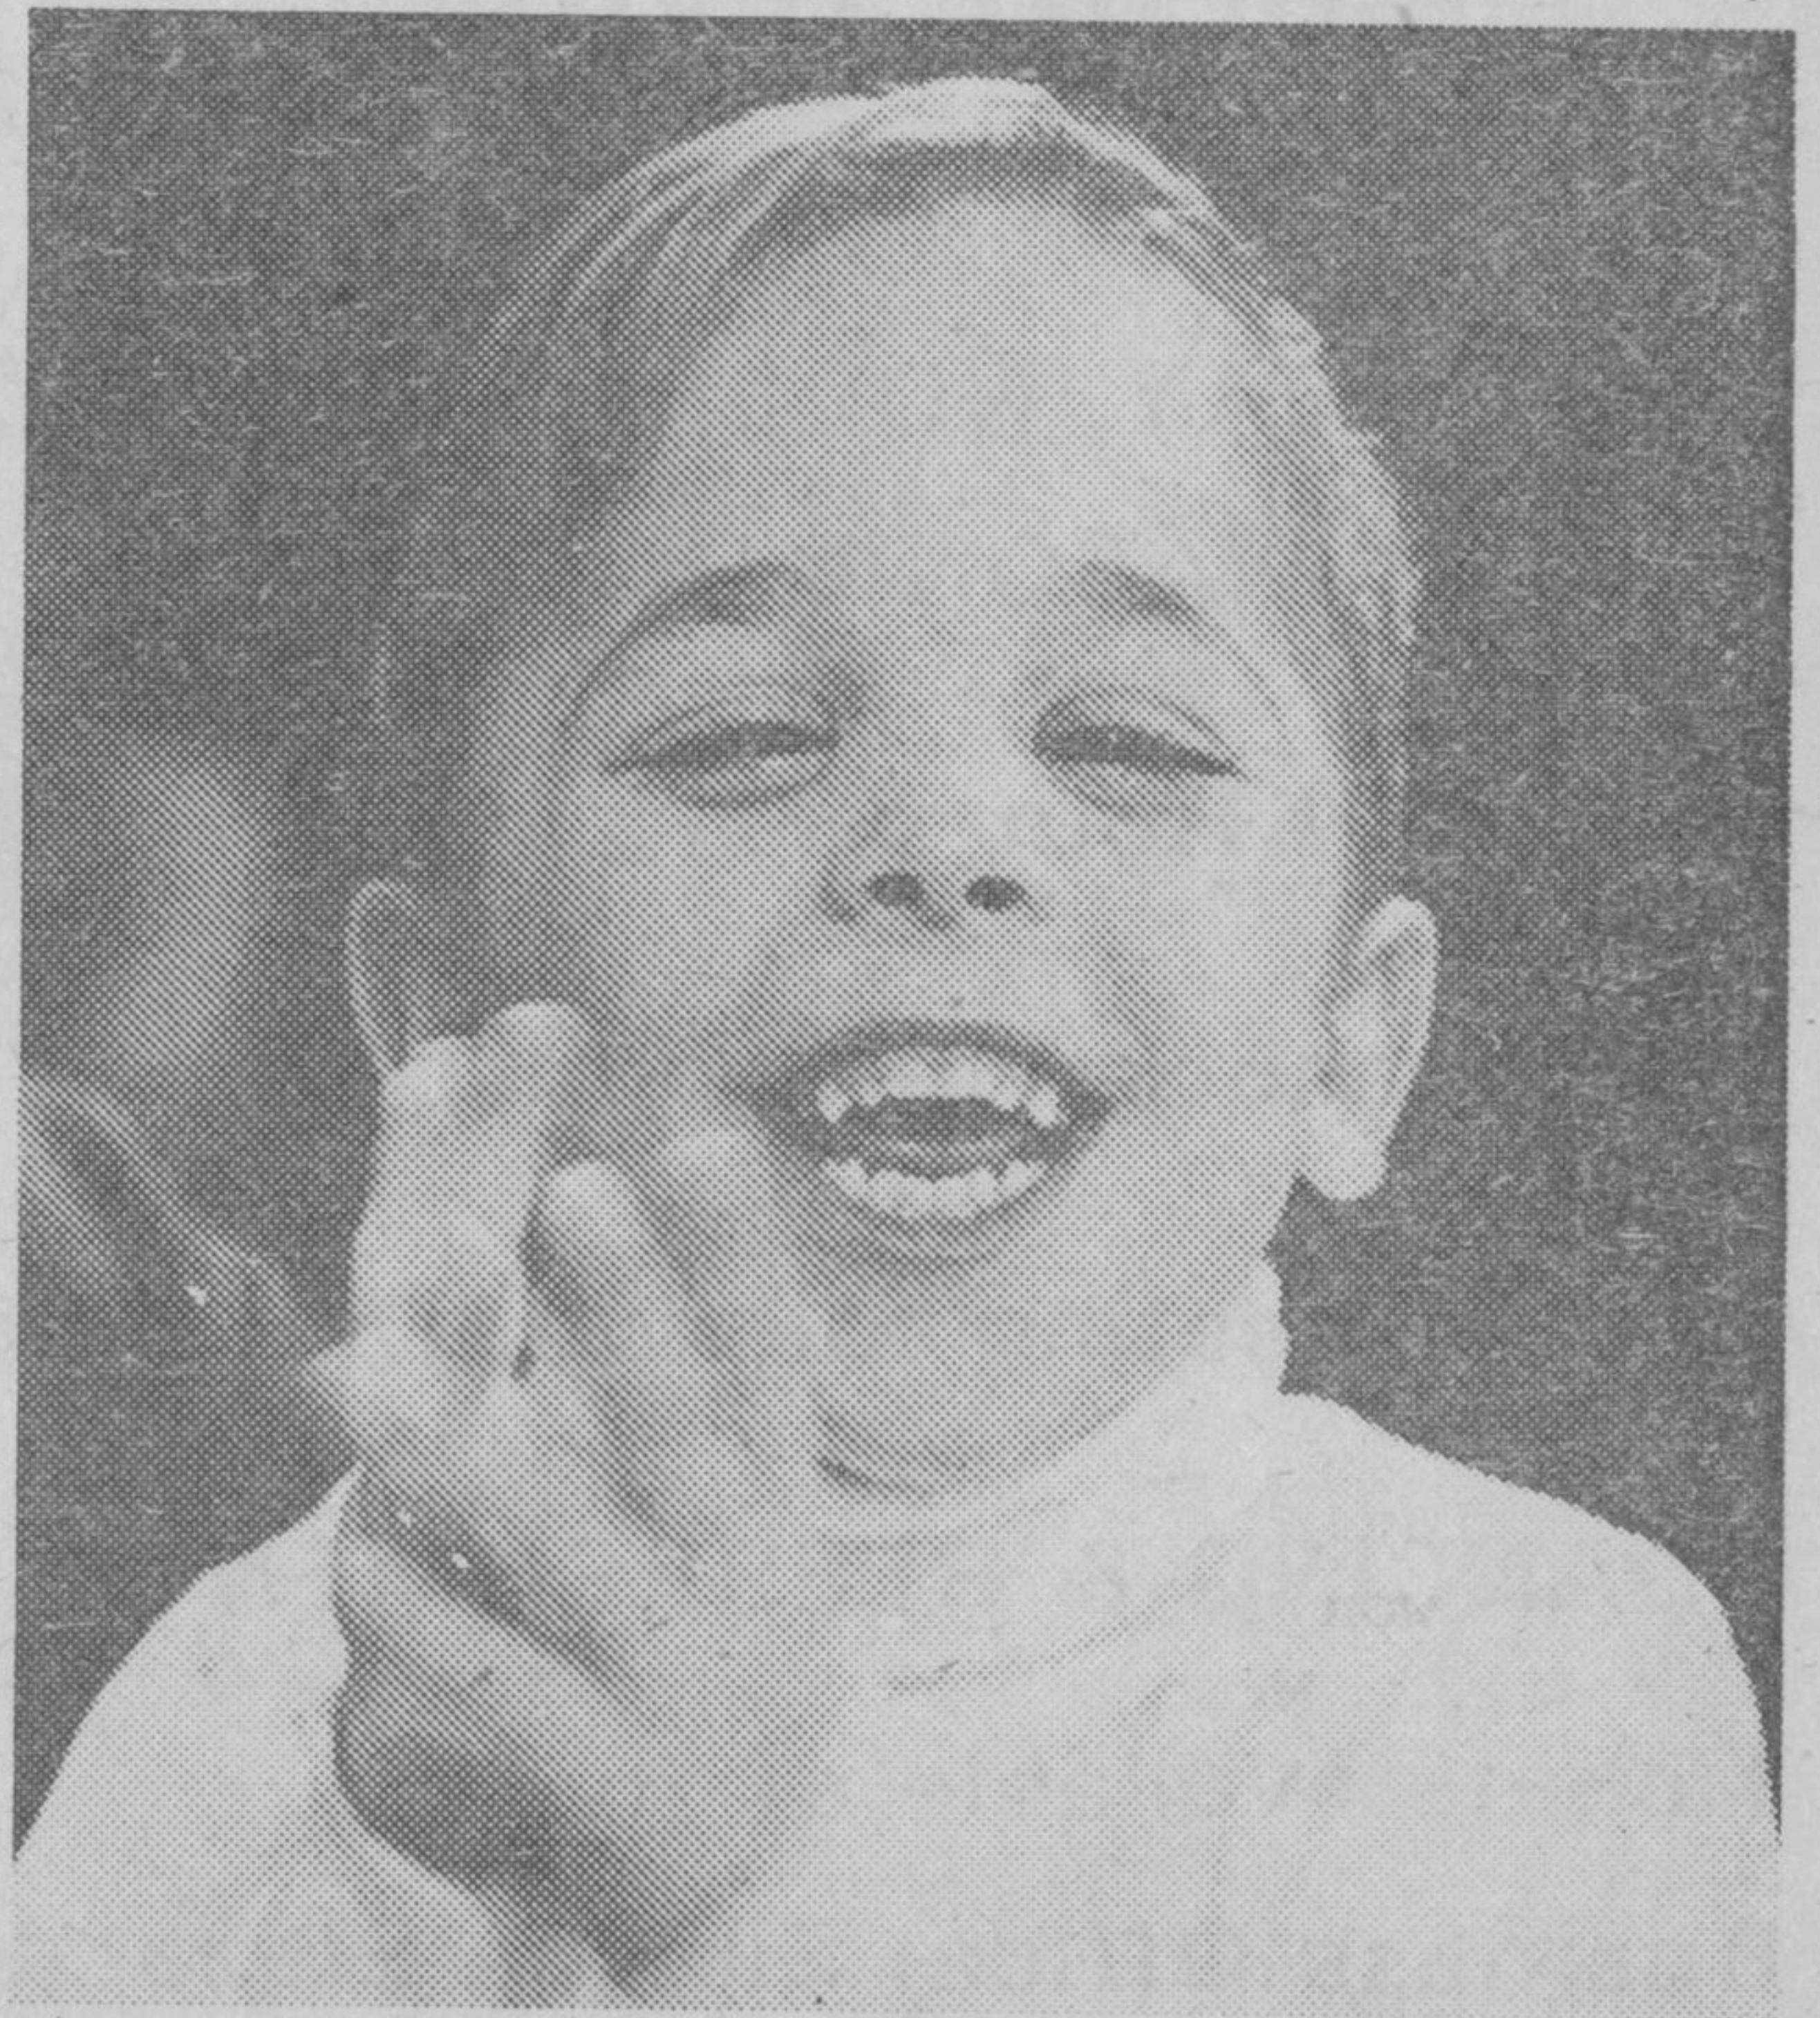

Tony is small for his age but active and sturdy. He is attending a special school for children who are below average and is showing much progress. His chief lag is in speech which is not clear — it seems he is always in too much of a hurry to form the words properly. However, he understands everything other people say.

Tony really wants to learn and has a good memory, as well as great determination. He will continue to need special education.

Lively, mischievous, lovable Tony welcomes attention but doesn't demand it. He can entertain himself for long periods and he also enjoys having company. He loves to be cuddled.

Tony needs loving parents who will enjoy his sunny personality and offer him encouragement and stimulation without making unrealistic academic demands on him. The Children's Aid Society seeking his adoption says: "We feel he will definitely be a rewarding child for the appropriate family."

To inquire about adopting Tony, please write to Today's Child, Box 888, Station K, Toronto M4P 2H2. For general adoption information, please contact your local Children's Aid Society.

HE IS ACTIVE AND CHEERFUL
