TERRACE BAY COUNCIL QUOTES

Before the actual meeting procedure of Township Council on October 23rd, Mrs. Linda Wills and Mrs. Leslie Samp verbally expressed their views to Council concerning a large hole that has been dug next to the Wills residence.

Their main concern was with the children playing in this area and to try and avoid a serious accident before it occurred, especially with the winter season shortly upon us.

Mrs. Wills stated she had been in touch with Kimberly-Clark about this problem and felt she was just getting "the run around", which is why she brought the problem to the town.

The minutes of the previous council meeting were then approved as submitted. Business arising from these minutes concerned the conflicting letters received from the Ministry of the Environment and Council will ask for an extension of time to upgrade the land fill area.

Correspondence was read, beginning with a letter from the Treasurer of Economics. This department reported that By-law 260 would become effective 30 days after being received by the Ministry.

A letter from the Ministry of Community and Social Services stated there were no funds available for outdoor pools left. Questioning this Council learned that if projects are submitted before the deadline funds are granted and they can submit this years expense on next years project.

Barnett McQueen wrote informing Council that no steam will be available in the heating change over for the coffee urns in the arena. Prices will be sought on electric urns.

ONTARIO YOUNG TRAVELLERS

Northern Ontario students will find it easier to visit Toronto under a new travel program announced last week by Education Minister Thomas Wells.

Under the program, called Ontario Young Travellers, grade 7 and 8 classes can apply for cash subsidies that will assist students, teachers and adult chaperones to spend at least two days in the provincial capital.

To qualify, schools must be north of a line running from Mattawa through Callander and along the French River. The subsidies are for transportation only; visiting classes will have to pay for accommodation, meals and admissions.

Mr. Wells said that Toronto was selected not only because it is the provincial capital, but also because it offers the greatest concentration of educational and cultural facilities in Ontario.

"About 80 percent of Ontario pupils have relatively easy access to these resources," Mr. Wells said.

"The Young Travellers program is for the 20 percent who don't."

The subsidies are based on the estimated bus transportation costs from the school to Toronto. As an example, a Thunder Bay class of 32 and three adults visiting Toronto, a 1,700 mile round trip, would receive a subsidy of about \$1,800.

The same size group visiting from Kapuskasing, a 1,070 mile round trip, would receive about \$800.00.

Mr. Wells said that last year 50,000 students visited the Ontario Legislature, 300,000 toured the Ontario Science Centre, 165,000
