

## LEGION BIRTHDAY PARTY

The Ladies Auxiliary to the Royal Canadian Legion, Branch 223, were entertained at a Birthday party in the banquet hall. The dinner was prepared and served by the men of the Branch.

Grace was said by Mrs. Pam Jones and Mrs. Stella Gusul gave the toast to the Queen.

President Jeannette Gunter welcomed all the ladies and introduced guests at the head table.

Special guests were members of the Ladies Auxiliary from Schreiber, Branch I09 and Marathon, Branch I83.

Guests were asked to introduce themselves and state what Branch they were from.

Mrs. Gunter introduced her own executive and thanked them for their co-operation over the past year.

Mrs. Eve Lawson, Secretary of the Marathon Auxiliary, and Mrs. Barbara McLaughlin, President of the Schreiber Auxiliary were called upon to say a few words. They presented gifts of tea towels, oven mitts and a set of bowls to the Terrace Bay Auxiliary for use in their kitchen.

Mrs. Gunter thanked Mrs. Gusul for making and decorating the Birthday cake, marking 11 years since the Auxiliary was formed.

Volunteers were requested to assist Mrs. Joan Young and Mrs. Lois MacRae with the Armistice Day Dinner.

The President announced the Manitowadge Branch would hold their Birthday party on October 27th.

Mrs. Gunter thanked the men for a most delicious dinner and they were given a hearty round of applause.

Jim Beddard showed some coloured slides of the progress made in building the new legion hall. Dancing followed.

## TODAY'S CHILD

BY HELEN ALLEN

THE TORONTO SUN SYNDICATE

You can see that one of Craig's eyes is not normal but he is to have surgery to correct it.

Craig has also been fitted with glasses, which he will need to wear after the operation to maintain the correction. He is not wearing his glasses here because at 15 months he doesn't yet understand what they are for and he doesn't like the feel of them. But his foster mother says he is a good-natured amenable little fellow and she is sure he will soon get used to his glasses.

Craig was born prematurely and so his development is behind the average for his age. He has only two teeth so far, and he was a bit late in starting to walk.

Craig is gradually making up his prematurity, however, and has had none of the health problems often associated with being born too soon. Now that he is walking he is constantly on the go, and he entertains himself well with his own toys or preferably with the contents of the kitchen cupboards.

Friendly, outgoing Craig loves children and animals and people in general. He is almost never shy. He likes to go out in the car and is a splendid traveler. He eats well and is a 12-hour-a-night sleeper even with a long afternoon nap. He seems to understand whatever is said to him and is building up a vocabulary of his own. Music goes to his feet — he loves to dance.

There are allergies and asthma in Craig's background but the baby himself has had no hint of either.

To inquire about adopting Craig, please write to Today's Child, Box 888, Station K, Toronto M4P 2H2.

HEALTHY AND BUSY
