LETTER TO THE EDITOR

Dear Editor:

I am a member of the Military Collectors' Club of Canada and the Canadian Aviation Historical Society, and have as two of my projects the responsibility of collecting both written information and photographs relative to the following topics:

The Prisoner-of-war camps located in Northern Ontario (World War Two Era)

Canadian Aviation as it applies to the north-west part of Ontario (this includes bush operations, and military aircraft development - the former applicable to the whole of north-western Ontario, the latter as it applies to the local Canadian Car & Foundry Co. Ltd. - 1939-1945).

It is a well-known fact that both Angler and Neys were rather well-established detention camps, but to date I have found information relative to the above rather sketchy in detail. The same applies to early aviation - there are a few photos available but little else.

I am writing this letter in the hope that you will publish the following appeal in the Terrace Bay News.

'I would be interested in corresponding with anyone who might have either written information (or still to be recorded facts!) or photographs dealing with the prisoner of war camps or aviation pictures of early aircraft which

serviced the northern communities along the north shore of Lake Superior.

Similarly - I would like to contact people with artifacts as retrieved from either Angler or Neys. By this I refer to hand-carved ship-models, walking sticks, drawing of camp life, cigarette boxes, and similar items

I would like to point out that I am trying to record the history of aviation in northern Ontario and of the prisoner of war camps before the material items find their way to the municipal dumps and the memories of events fade away forever. Any co-operation extended by the readers of the Terrace Bay News will most certainly be appreciated.'

Thank you.

Kenneth R. Johnson,
