

Can the thermostat be turned down?
 Can you turn off any lights? Has your company got an Energy Conservation Suggestion Scheme?

We're taking our own advice.

All Ministries and Agencies of the Ontario Government are doing their bit to conserve energy. Lighting and heating levels are being reduced in government buildings; a new emphasis is being given to economical operation of vehicles; Ontario Hydro and the Ministry of Education are encouraging consumers and schoolchildren to learn good habits in the use of energy. And that's just a beginning!

20-26 Around the house.

- Are the door seals on your oven, refrigerator and freezer good?
- Don't use the oven if a toaster or fry-pan will do the job If you buy an electric heater, make sure it has a thermostat Use lower wattage bulbs if you can Use Christmas lights from 6 pm till bedtime Use pots that cover stove elements
- Thaw frozen food before cooking
- Defrost freezers regularly A pressure cooker saves energy as well as time.

33-39 On the road.

A well-maintained car is an economical car Check tires and alignment

8-13 Keep the heat in!

Insulation pays, especially in attics.

- Fit storm windows, weather-strip outside doors Keep fireplace damper closed Use range hood ventilators only when necessary If you sleep with the window open, close the door Close drapes at night.

14-17 Use your thermostat.

Each degree you lower the thermostat cuts fuel consumption about 3% It's possible to save by turning the

Save this check list...and save energy!

Industry, business, homeowners, agriculture and government must all work together to conserve energy. If we each save a little...we'll all save a lot.
