

CP RAIL WARN SNOWMOBILERS

Each year the number of fatal accidents involving snowmobiles on railway property increases. Investigator Crook of C.P.R. Investigation Department said that recently there have been a number of reports from train crews of near accidents due to snowmobiles on the railway right of way.

He specially mentioned the rock cut at the east end of the CPR yard in Schreiber, and the Agausabon River Bridge and the area around the highway overpass in Terrace Bay and pointed out that while it is both dangerous and illegal to operate a snowmobile anywhere on railway property, these areas are particularly dangerous due to the limited clearance.

He warned that no further warnings will be issued and that in future Section 359(2) of the Railway Act which carries a penalty of up to one hundred dollars for operating a vehicle, which includes a snowmobile, on railway property will be strictly enforced.
