

Sports Slants - continued

had finally been achieved by Hank Aaron, a record that, years ago, they said would never be eclipsed.

It's ironical that the sign over which Aaron hit his monumental homer read, "think of it as money," because, that's exactly what it'll give Mr. Hank Aaron ... money.

No. 715 not only means that Henry can now breathe easy and not worry everytime he steps up to the plate about breaking Ruth's famous record. It means close to a million dollars in endorsements, commercials, movies, you name it, he'll be doing it.

Many fantastic stories will be written about Henry Aaron now that he's broken The Bambino's home run mark. I didn't want to write an epic or award-winning story on the historical moment.

I'm just glad I was awake to see the great event on live TV and be able to tell you about it in case you missed it ...

Since we're on the subject of baseball, I'll stick to that game -- even though the Stanley Cup playoffs are under way -- and make my baseball predictions for this year.

Here goes!

YOU THINK MARCH WAS COLD?

Our mean temperature was 19.5°. In 1962 it was 13° - last year 35°. Here are the scores since 1959:

1959	22°
1960	15°
1961	21.5°
1962	13°
1963	23.5°
1964	21°
1965	20.5°
1966	21.5°
1967	19°
1968	22.5°
1969	22°
1970	23.5°
1971	22.5°
1972	15.5°
1973	35°
1974	19.5°

If you still need cheering up, notice the warming trend in the past three 5-year periods:

1959-63 average	19°
1964-68 average	20.9°
1969-73 average	23.7°

Now, that looks better, doesn't it?
