

Stokes Support - continued from page I .....

Their objective is to develop a program of Health Services which will best serve the needs of the people, in that area, at present served by the McCausland Hospital.

After consultation with Ministry officials, councils and citizens groups it was made abundantly clear that such a health program must provide the following.

Active treatment beds, chronic beds, adequate emergency room and laboratory and X-ray facilities. It is essential to the delivery system to have available qualified physicians, emer-

### your week ahead BY DR. A.W. DAMIS

Forecast Period: May 19 to May 25

**ARIES**  
Mar. 21 - Apr. 19

Fuzzy thinking shows in your chart. This cosmic cycle finds you physically and emotionally off center. It would be a good idea to set aside major decisions.

**TAURUS**  
Apr. 20 - May 20

You are entering a period when a few uneasy moments might cause you to join up with persons, not of your caliber. In short, don't form an "unholy" alliance.

**GEMINI**  
May 21 - June 20

A new face is coming your way. Remember, it's as hard for the good to suspect evil as it is for the bad to suspect good. Think about it!

**MOONCHILD**  
June 21 - July 22

Actually, there is little in the way of excitement, during this week's cosmic cycle. Things should be on the upswing, unless you decide otherwise.

**LEO**  
July 23 - Aug. 22

The planet Mars gives you a shot of "arrogance," this week. Meaning? Indifference toward members of the opposite sex might parlay into incalculable problems.

**VIRGO**  
Aug. 23 - Sept. 22

Without conscious design, your general attitude might confuse a member of the opposite sex . . . who, already, is frustrated because of your actions, last week.

**LIBRA**  
Sept. 23 - Oct. 22

It's a fact of life, some members of your sign will plunge deeper into the "eternal triangle." Clandestine affairs of the heart, show in the charts of many Librians.

**SCORPIO**  
Oct. 23 - Nov. 21

Getting in "brownie points" seems to be in the general scheme of things. You will be going beyond your circle of friends, in order to improve your job, project or task.

**SAGITTARIUS**  
Nov. 22 - Dec. 21

In one form or another, you will receive a compliment from an unexpected source. Actually, things will go your way - in spite of yourself.

**CAPRICORN**  
Dec. 22 - Jan. 19

Star patterns could be read two ways, this week: Either a romance will affect you indirectly or a member of the opposite sex questions your motives.

**AQUARIUS**  
Jan. 20 - Feb. 18

Modesty, this week, is not one of your better points. Guard what you have to say before persons in authority, you're coming on too strong!

**PISCES**  
Feb. 19 - Mar. 20

Subtle flattery will get you what you want, this week. Might sound like stock advice, nonetheless, a smile will put your hand on a "jack-pot" lever.

gency specialists, clinics and nursing services extended into the home.

The McCausland Hospital Board, with the advice of many expert and knowledgeable people, has a plan that will meet the basic needs of all residents in the area it serves. All possible assistance should be provided to make this program a reality.

I heartily endorse this proposal as it is an excellent example of how communities can cooperate and co-ordinate a program on an area basis.

There is a feeling of goodwill and unity of purpose and it is obvious that your Ministry must play an important role if this program is to enjoy the success it deserves.

I respectfully urge you to lend your support and encouragement, to the greatest extent possible, to make this excellent system a reality.

Your interest and concern as always will be greatly appreciated.

Jack Stokes, MPP
