

## Business development means more jobs and increased opportunities.

### This is what Ontario is doing to help businesses grow.

Suppose you operate a manufacturing company, or a service company operating in support of manufacturing. Suppose that you operate a tourist resort, or a tourist attraction that benefits local resorts.

Others depend on you for a living. So your Ontario Government wants to help you help them... through the Northern Ontario Development Corporation (NODC) financial assistance programs.

The NODC was established by the government here in Ontario to provide financial assistance to businesses unable to obtain necessary funds from conventional lending institutions. These programs are designed to stimulate industrial growth, encourage economic development and increase employment opportunities in Northern Ontario.

Briefly, NODC financial assistance

programs are divided into the broad classifications of incentive loans, term loans and export support loans.

Your Ontario Government has prepared a concise, easy to understand booklet explaining who may qualify for NODC financial services.

If you would like a copy of the booklet, or wish to make application for NODC assistance, write, call or visit your NODC office.

Or, you may wish to contact an NODC consultant visiting your area... as advertised in this newspaper from time to time.
