your week ahead BY DR. A.W. DAMIS

Forecast Period: May 26 to June 1

- ARIES**
Mar. 21 - Apr. 19
It's one of those cosmic cycles when you should believe little of what you see. Apparently, an associate will attempt to mislead you. So, look below the surface; check out motives!
- TAURUS**
Apr. 20 - May 20
You must distinguish between fact, rumor and theory. Your relationship with the opposite sex and what seems to be a profitable venture . . . could be "harpooned" by misinformation.

May 21 - June 20
Increased activities in your job, task or project, shows in your chart. This could be one of those weeks when you'll toss "too many irons on the fire!"

Unexpected changes, to your advantage, are in the general scheme of things. But, you must be especially careful of minor details. Also, outside help is on the way.

Prepare to change your opinion about an associate, this week. Most important, be certain of your facts . . . before you accuse someone. Better still, remain silent!
- VIRGO**
