

RE-OPENING OF THE ZENMAC ROAD

- by K.E. Bowler, Engineering Services Officer.

The Zenith mine, located 12 miles northwest of Schreiber, was first opened and operated for a few years during the 1890's. The zinc ore was hand picked for grade and packed in burlap bags. During the winter the ore was shipped by horsedrawn sleighs over a series of lakes and portages to the C.P.R. siding at Selim. The mine was opened up again during the early 20's. The steam drill and hoist from that operating period are still evident on the old mine site.

In 1964 the mine was sold and renamed the Zenmac mine by the new owners. The new company decided to haul the ore by truck. Road construction started in 1964 and was completed in 1965. Shipment of ore to the concentrate mill located at the Selim siding commenced in 1966. Production continued until 1969. At that time the mine was closed and the road, which was located on Crown land, was abandoned. Heavy autumn rains soon took their toll of the road, which was only built for short term use.

During the past few years the Ministry has carried out a good deal of repair and maintenance work on the road. Our objective is to provide a low speed all weather access road for general recreational purposes. The road is now passable to mile 13, just south of the old mine site.

The Zenmac road is a very scenic route following a series of small lakes and streams through a rugged valley to its terminus at the Zenmac mine. It opens a considerable area for outdoor recreation. The road is classed as a Forest Access Road and as such is open to the general public under normal conditions. Due to the narrow road bed, steep grades and sharp curves, extreme caution should be exercised by the travelling public. L.J. Haas, District Manager.

your week ahead BY DR. A.W. DAMIS

Forecast Period: June 2 to June 8

- ARIES**
Mar. 21 - Apr. 19
The moment someone mentions a good deal—beware! Your chart warns against becoming involved in a "get rich" scheme. Really, it's not the time to start a project.
- TAURUS**
Apr. 20 - May 20
No doubt whatsoever, your sign has the urge to tamper with affairs of secret order. So, avoid the temptation to carry malicious gossip.
- GEMINI**
May 21 - June 20
For you? Members of the opposite sex, most certainly, will hold the spotlight. Anyway, you'll make points in some unexpected areas. Look for surprises!
- MOONCHILD**
June 21 - July 22
Might sound like "stock" advice. Nonetheless, before you sign, please read documents that must be attended to—before the end of this month.
- LEO**
July 23 - Aug. 22
You just might . . . talk a little too loud, and, a little too long. Most members of your sign are prone to becoming too pushy, this week.
- VIRGO**
Aug. 23 - Sept. 22
Several opportunities are heading your way, including a rather tempting overture. The point? Don't disrupt your present living pattern . . . hold on to security.
- LIBRA**
Sept. 23 - Oct. 22
Over indulgence and physical pleasures seem to be in this week's stellar pattern. Discretion is in order—for most members of your sign. One other thing! Check your grooming.
- SCORPIO**
Oct. 23 - Nov. 21
Telling the truth is one thing; at whose expense is another. This week, it seems as though you will receive data or evidence that could harm an associate.
- SAGITTARIUS**
Nov. 22 - Dec. 21
According to your chart, things will get worse—before they improve. A major reversal will prove to be an advantage, in the long haul.
- CAPRICORN**
Dec. 22 - Jan. 19
Look for a behind the scene romance to affect your job, task or project, in one form or another. Incidentally, it's not a good week for speculations.
- AQUARIUS**
Jan. 20 - Feb. 18
Your chart is painted with a broad brush of optimism. A series of events, this week, will inspire you with new ambitions.
- PISCES**
Feb. 19 - Mar. 20
Many under your sign, must wait out a bad situation that has now developed with members of the opposite sex. Other Pisceans must guard valuables.
