

CNIB Mobile Eye Care Unit - cont'd from page 1

Operations Manager, Miss Pat Trusty instilling eye drops to dilate the pupil to test for glasses.

Dr. R.D. Merritt, Niagara Falls using an applanation tenometer to test for glaucoma

Using a retinoscope to refract for glasses

Photos by A. McKie.

FREE

ONE INDIVIDUAL or GROUP PORTRAIT

IN

LIVING COLOUR

Mom, Dad or all the Kiddies may be photographed as a group — **FREE**

☆☆

PARENTS: We've arranged to have a nationally recognized professional photographer at our store on the dates shown below.
You can have each member of the family photographed in several poses, and pick any one of them for your free portrait. We only ask that all children be accompanied by a parent.

DON'T MISS THIS OPPORTUNITY
to get a living colour portrait you will treasure always. Several poses are taken and low cost additional portraits are available for those who wish them.

It's our way of saying "Thank You" to our many regular customers, and "Welcome" to everyone else. Incidentally, we believe these photographs are really something special. They're beautifully posed portraits — not snapshots. And don't forget they'll be in *living colour*, so dress the children in bright colours.
