

Crown Land Camping - continued

was chosen as the pilot area. This area can generally be defined as being from English River east of Ignace, west to the Manitoba border, and from the International boundary to north of Red Lake and Pickle Lake.

Regional and district staff of the ministry prepared a detailed implementation program including the areas to be covered in the pilot program, the location of designated camping areas, the number of sites in each camping area, costs and staffing. This will not apply where commercial and provincial parks already meet the need.

This general principle of controlling Crown land camping and the detailed plan for implementation of a pilot program in Northwestern Ontario were presented to the Northwestern Region Advisory Committee on Natural Resources in Kenora in March, 1974. The committee was asked to consider the proposal, recommend changes, indicate the period of the year during which it should be applied, rates to be charged, or recommend alternative solutions to the problem if they thought the Ministry's approach was wrong.

The Committee unanimously endorsed the pilot program proposal to be instituted in the Northwestern Region in 1974. Because it is a pilot program no fees will be charged for this first year. It is anticipated that there will be a charge to non-residents for the privilege of camping on Crown land in 1975.

ONTARIO EXPERIENCE '74

Four programs sponsored by the Ontario Youth Secretariat's student summer employment program, Experience '74, will hire students in Terrace Bay this year.

Ontario Experience '74 consists of twenty-component programs designed to provide summer employment to students living in areas where there is not a large industrial base.

The programs operate through the various ministries of the Ontario government in co-operation with local agencies and organizations. The jobs provided by the various programs are experience oriented to allow students to use their training and skills.

SWORD (students working on resource development) will hire students in Terrace Bay through the Ministry of Natural Resources to do road clean-up, data, and census work.

Youth and the Law will have one student working on a day to day basis with police in Terrace Bay. The student is paid and sponsored directly by the Ontario Police Commission.

One student will be hired in Schreiber at

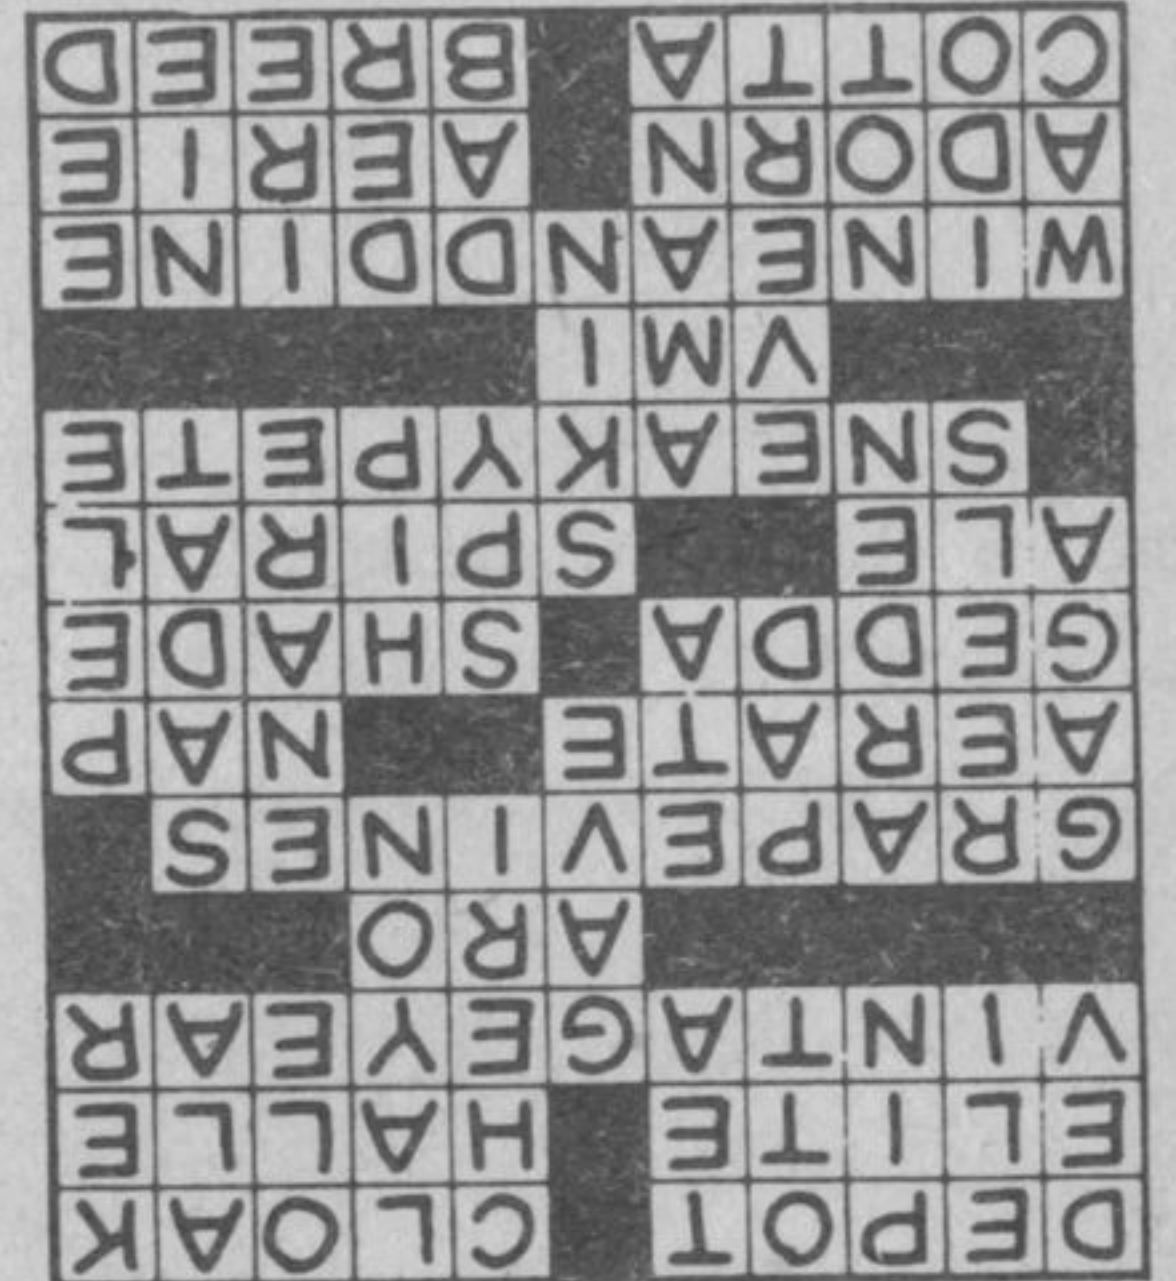

the Public Library in a Library Youth Project under Youth and the Arts.

Youth in Action, a shared cost program between the Ministry of social services and sports and recreation bureaus will operate two projects in Terrace Bay and two in Schreiber. In Terrace Bay one student will be hired in the "Pre-School Educational Program" while two students will work for the "Youth Summer Camp" project.
