VANDALISM AT TERRACE BAY SWIM POOL

It appears that some people just go out of their way to cause extra expense to the taxpayer as well as creating a very dangerous situation at our outdoor swimming pool.

Within the past few days, some people have managed to do some very sickly acts causing extra maintenance, loss of supplies and a dangerous pool to swim in. Some of the sickly acts are as follows:

Broken glass and fluorescent tubes into the main pool; Mixing chemicals together, resulting in a complete loss of supplies and extra maintenance to replace same; Turning numerous valves on the filtration system, causing water level in the pool to go down and resulting in some pumps sucking air.

One would wonder why these sickly people have to cause this type of vandalism at a community facility which is appreciated by many of the people in our community.

Anyone caught using the swim pool facilities after hours will be dealt with in a court of law.
