

Museum to the People - cont'd from page 1

Fossil specimens, maps, short films and written explanations guide the visitor through the exhibit. This Museumobile demonstrates dramatically the history of Ontario and the vital role fossils play in the documentation of past events.

The third Museumobile "Man in Ontario - the first 12,000 years" is the story, in broadest terms, of man from the time he first arrived in Ontario. Artifacts - tools and implements, and printed material outline the story from the Paleo Indians, who followed the retreat of the glacial ice into Ontario some 12,000 to 13,000 years ago, through the Historic or Fur Trade period, about 1600.

The Royal Ontario Museum's Museumobiles are designed so that they may be driven into a community, the door opened and the Museum, or a part of it, is there ready to be viewed.

The Museumobile will be in Terrace Bay on Friday, July 19th at the Curling Rink parking lot.

NOTICE

Mr. and Mrs. A. Boutilier will be away on holidays from JULY 15th - 26th.

For express pick-up and delivery call: Susan Merkley, 825-3343.

HORTICULTURAL SOCIETY HOSTS ANNUAL MEETING

Saturday, May 18th was a busy day for the Rainy River Horticultural Society. They had the privilege of hosting the only district I4 annual meeting ever held anywhere other than Thunder Bay. It was a great success due to the dedicated efforts of the Rainy River members.

Sixty-six people registered. Seven of the eight societies in district I4 had from 2 to 10 or more representatives present. The host society, Rainy River was out in full force to lend encouragement and support to its officers and committees. Some delegates came as far as 800 miles round trip. This spells out real co-operation and interest.

At this meeting, Jim Hammond took the chair to hold nominations for a new district director. Mr. Albert Farrow of Terrace Bay was elected by acclamation.
