your week ahead BY DR. A.W. DAMIS

Forecast Period: October 27 to November 2

ARIES
Mar. 21 - Apr. 19

Don't lie to yourself in order to justify your motives. Face the facts, you're entering a period when you'll participate in a bit of "back-biting." Please guard your words.

TAURUS
Apr. 20 - May 20

It seems as though you'll get the chance to expand your job, task or project. See to it that social or romantic problems won't become an obstacle.

GEMINI
May 21 - June 20

This could be a highly favorable week. There's two drawbacks, however. You might take a serious situation too lightly, what's more, you're prone to defy authority.

MOONCHILD
June 21 - July 22

Guard against an unusual lack of confidence. Cosmic influences will put you to test. In other words, you might be over cautious in a situation that demands a firm, swift decision.

LEO
July 23 - Aug. 22

Don't permit yourself to be drawn into a venture; simply, because you've overstated your financial reserve. Also, you're highly vulnerable to flattery, this week.

VIRGO
Aug. 23 - Sept. 22

Play it cool, for the balance of this week. According to your chart, it's not the time to persuade or convince anybody; especially, the other sex.

LIBRA
Sept. 23 - Oct. 22

From all indications it's possible that you'll do some pinch "hitting," this week. In other words, you'll take on somebody else's responsibility, for a brief period.

SCORPIO
Oct. 23 - Nov. 21

You're holding faulty and inaccurate data; then again, you could be covering up information. The point? Don't rely on "ace in the hole" statistics.

SAGITTARIUS
Nov. 22 - Dec. 21

It's the old escape from reality. What? Getting involved in someone else's problems in order to forget your own! Bluntly, take care of your troubles, this week.

CAPRICORN
Dec. 22 - Jan. 19

You'll face a week of fierce competition that could include veiled threats. What is more, you'll be forced to take ruthless measures to come out ahead.

AQUARIUS
Jan. 20 - Feb. 18

Don't become a student of the theory that: A lie can function as well as the truth... it won't! You will, however, bend twist and stretch a few facts, slightly.

PISCES
Feb. 19 - Mar. 20

Speaking of the opposite sex! You're caught up in the past, far too much to ever change. It's not the time to think of changing your romance pattern.
