your week ahead BY DR. A.W. DAMIS

Forecast Period: November 3 to November 9

- ARIES**
Mar. 21 - Apr. 19
Most members of your sign face imaginary perils. The point? Move into a new venture, in the offering. There's, really, nothing to fear or fret about.
- TAURUS**
Apr. 20 - May 20
A decision made in the past, so it seems, demands reaffirmation. Stick by your guns; don't relinquish what you believed several months ago.
- GEMINI**
May 21 - June 20
Remember, repeating what you hear, based on hearsay, can be deadly. Avoid a gossiping "but-insky." During this cosmic cycle, silence will be golden!
- MOONCHILD**
June 21 - July 22
Throw yourself into a project that involves long term plans, also, avoid emotional outbursts that might be triggered by your jealous and suspicious nature.
- LEO**
July 23 - Aug. 22
There's no use of swimming against the tide. According to your chart, it's time to join your associates. In other words, if you can't "whip them; join them!"
- VIRGO**
Aug. 23 - Sept. 22
There's strange "goings on" in your chart. It seems as though an event taking place, at some distance... will affect your relationship with the opposite sex.
- LIBRA**
Sept. 23 - Oct. 22
Many members of your sign will be working at making friends with someone — who doesn't, particularly, care to encourage your attention or good will.
- SCORPIO**
Oct. 23 - Nov. 21
What you eat and drink plays a major role in this week's cosmic cycle. It would be a good idea to check into your diet and general health.
- SAGITTARIUS**
Nov. 22 - Dec. 21
There's always the chance that a friendship will drop in value, if one refuses to lend a helping hand when "the chips are down!" You'll test this theory.
- CAPRICORN**
Dec. 22 - Jan. 19
Thoughts about age and the future will haunt most Capricorns, during this week's cosmic cycle. So, it's time to review the past and prepare for things to come.
- AQUARIUS**
Jan. 20 - Feb. 18
This week's events might take a surprising twist. A member of the opposite sex, so it seems, might pin you down with responsibilities that you aren't ready to undertake.
- PISCES**
Feb. 19 - Mar. 20
Try to stay ahead of an unpredictable person who has become part of your job, task or project. Someone wants to "belittle" you in the eyes of a superior.
