

WOMEN OF THE MOOSE NEWS

The Chapter night meeting of the Women of the Moose was held on Wed. November 6th with Library chairman Yvonne Leclair and her committee being in charge of the program.

Minutes of the last meeting were adopted as read by recorder, Helen Almos.

Correspondence consisted of a letter from the Hospital Board of Governors requesting that one of their members speak at our meeting, the subject being our new hospital. Members decided to hold a joint meeting with the Lodge members and have the speaker talk on the subject to both the ladies and men, the date to be announced later.

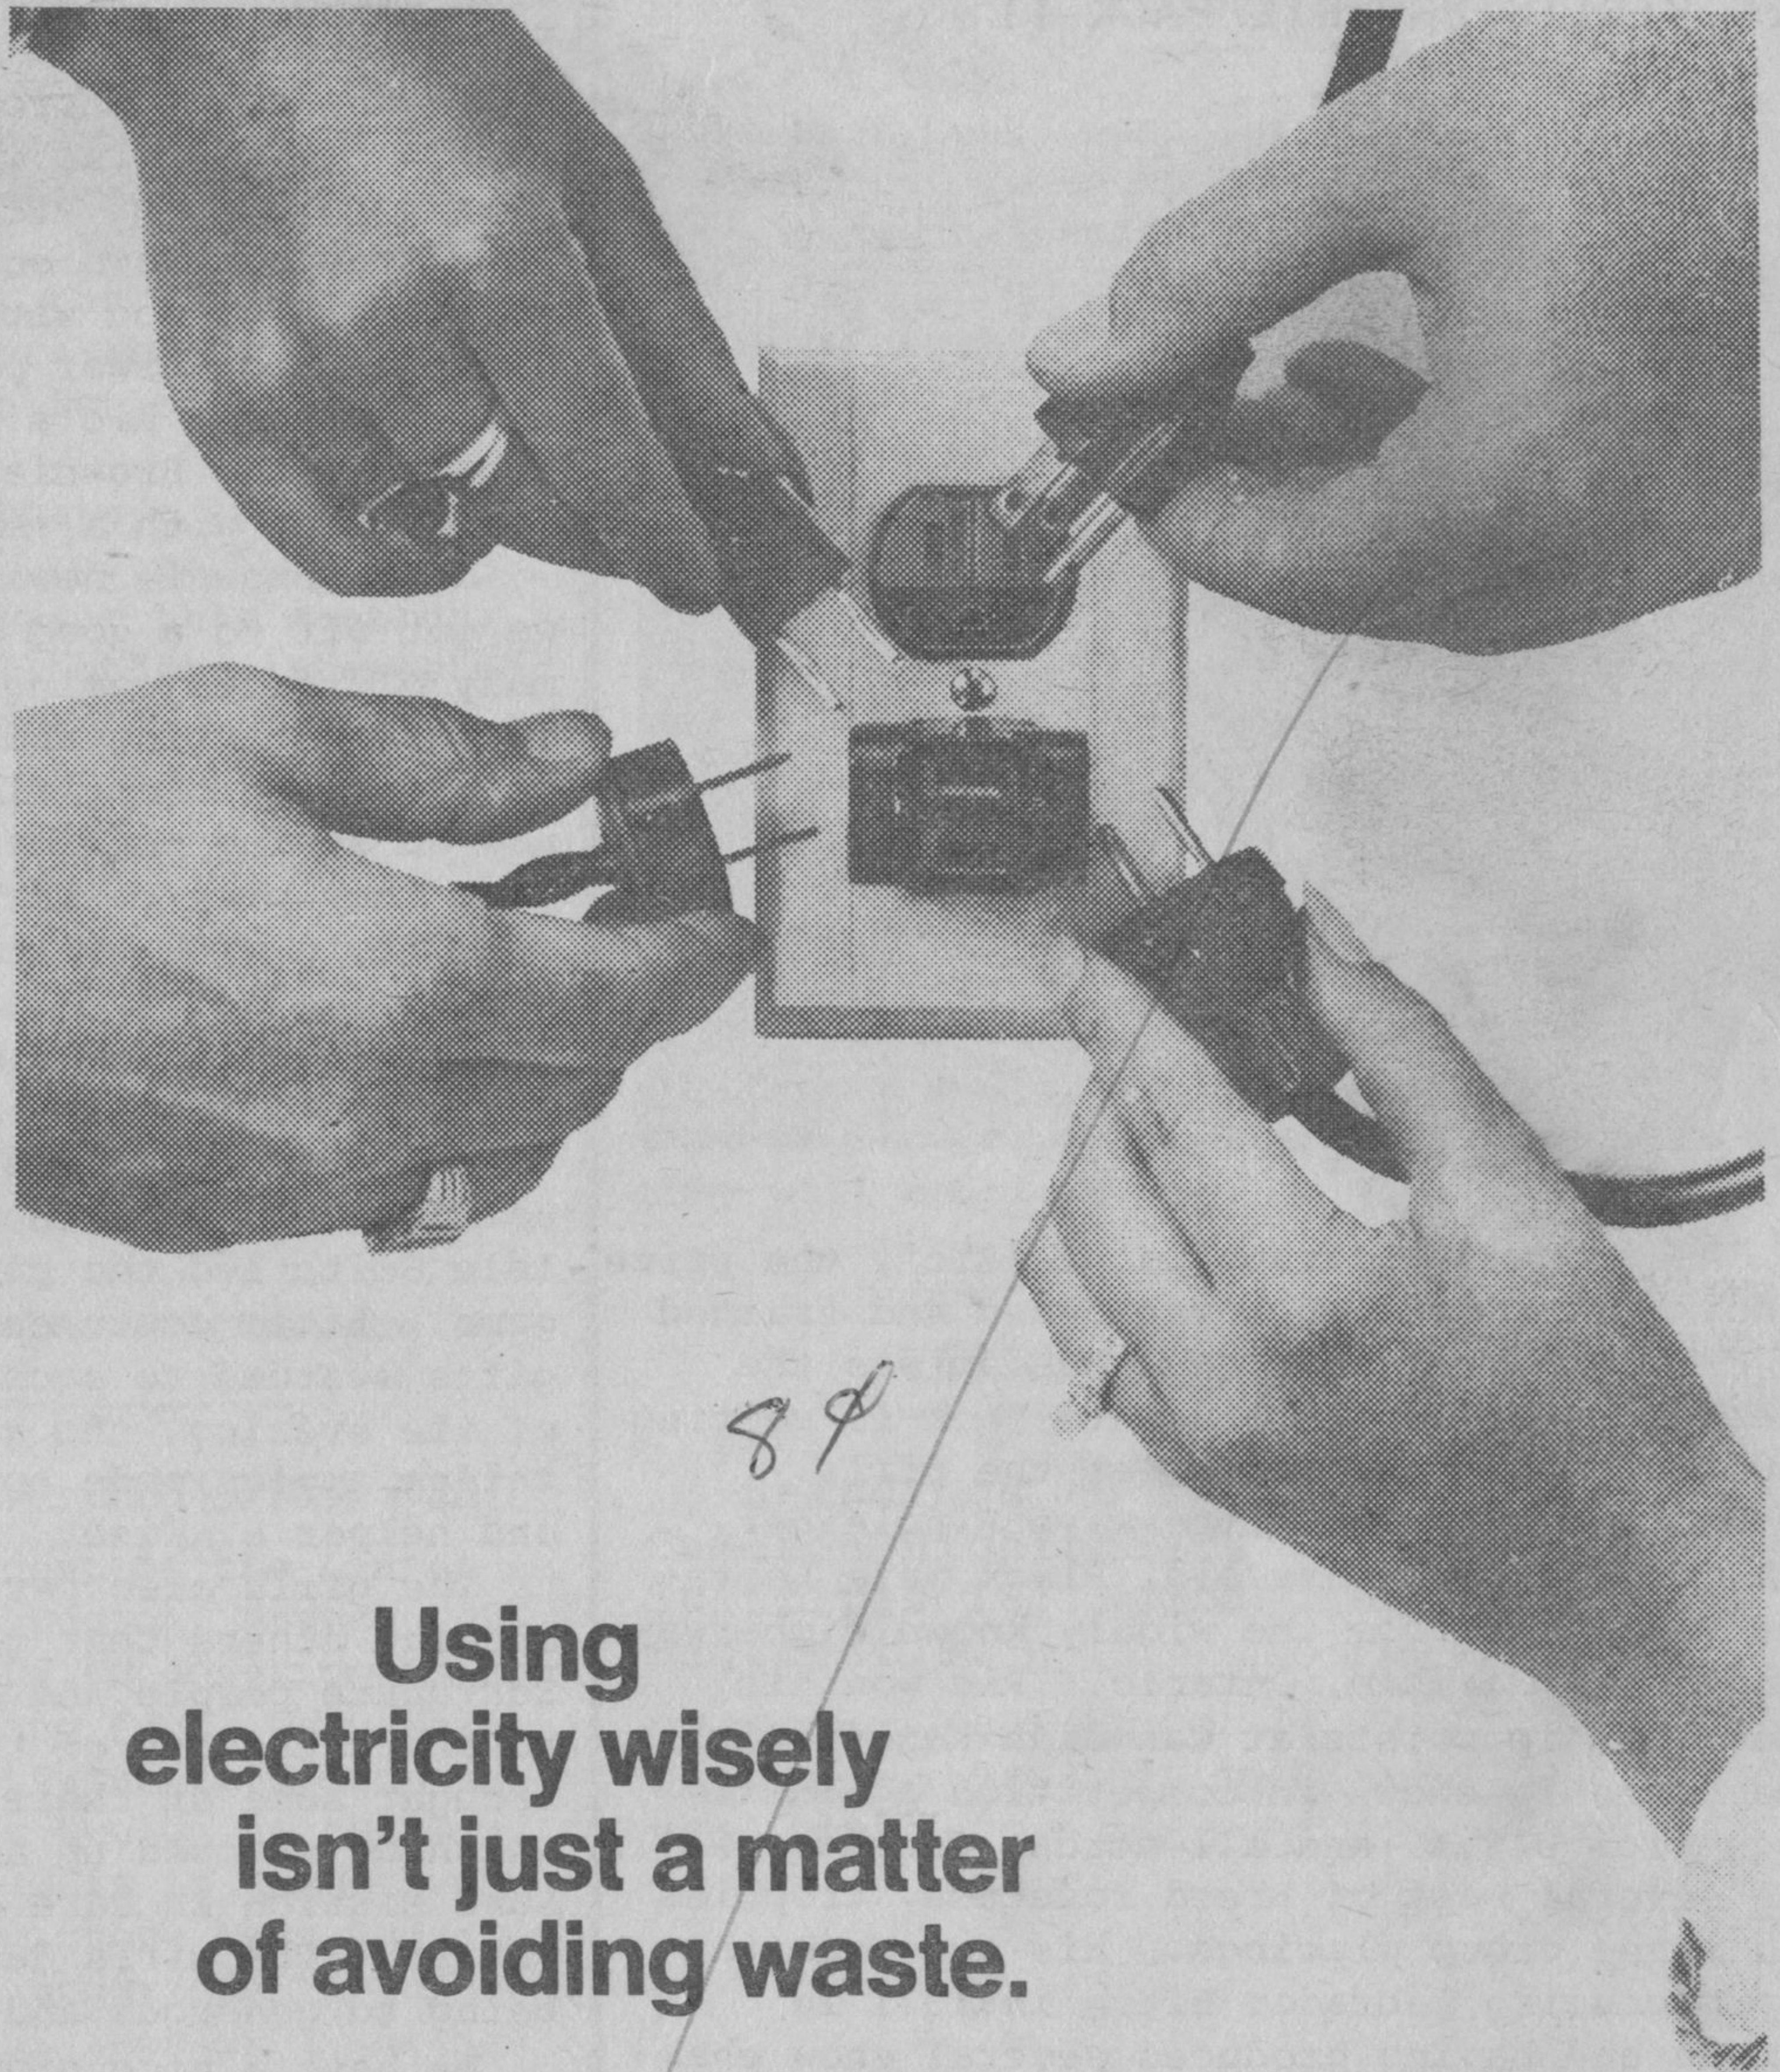

A thank you card was received from Anne Todesco.

The Annual Quarter Century Dinner and Dance sponsored by Kimberly Clark of Canada will be held on Saturday, December 7th with Paige Legacy as convener of this event.

Discussion took place on the children's Christmas party and the New Years dance. These two will be discussed at a joint executive meeting.

Sadie Benko gave a report on the Halloween dance which was very successful.

A social will be held on Saturday, November 23rd with live music being provided by

Using electricity wisely isn't just a matter of avoiding waste.

Being watchful to avoid the frittering away of kilowatthours is everyone's concern, in the interest of economy and conservation of valuable energy resources.

But for some people, living in older homes with outdated wiring, restricted use of appliances is not always a matter of choice. They do not have sufficient circuits to serve normal needs without resorting to 'octopus' outlets and extension cords. The result: overloading and blowing of fuses.

These conditions also tend to diminish the performance of appliances and shortens their life.

Inadequate wiring is not only inconvenient, it can be a safety hazard. If you have any doubts about the capacity of your home's wiring have it checked by a qualified Electrical Contractor. Then, use electricity wisely... and safely.
