**week ahead BY DR. A.W. DAMIS**

Forecast Period: January 26 to February 1

19 This week finds you emotionally down. Your surroundings and loved ones will be neglected. Take the bulls by the horns, and live up to what is expected of you.

20 During this cosmic cycle your egotism takes over. Unfortunately your intellect is going through a new high, but be modest about it. You will find your associates more cooperative as a result.

20 Most Geminis will reap monetary gains this week, if they have invested wisely. Be careful of false friends, do not confide in them. Fortunes breed this type.

22 You are definitely restless with your mate or companion for this period, and want to escape. Be careful — the grass will not be greener.

22 Your mental attitude this week, Leo, is gloom. Surround yourself with friends, young and old to pull you through. There is a real surprise in store for you.

22 Money will be easy to come by during this period, but do a little meditating before you squander. A good idea is coming to pass that you'll want monies for.

22 Your popularity is reaching an all time high among both sexes. Don't shy away. Be a joiner . . . you will gain new truths about yourself.

21 Entertainment, travel, good companionships in your stars this week. Don't, however, allow this new found excitement, cause you to disregard good friends.

JS 21 Your spirits are at a low ebb . . . rumors surrounding your actions could affect your home life. Stay away from your inner circles and the truth will out.

19 Have patience, Capricorn, the news you have been waiting to hear is on its way. Do not alienate your friends. What you want will happen.

18 You are in for happy times, but be very careful of a new companion, that could temporarily turn your head . . . and your excitement could be short-lived.

20 This will be a week of family visits, even relatives from afar. Do not dig up the past with your visitors; otherwise a quarrel could arise.
