week ahead BY DR. A.W. DAMIS

Forecast Period: February 16 to February 22

19 Hold it Aries! Apparently, your heading toward
outbursts that could add fuel to the fire. It
seems as though you are too demanding of a
loved one.

20 It's patience that makes the big difference between
the spider and the fly. Keep that thought in
mind—when you contact the opposite sex.

20 A change of attitude—and outward appearance
seems to crisscross the chart, for most mem-
bers of your sign. The point? Don't change your
romance pattern, however.

D 22 Allow for a surprising twist in your job, task or
project. In other words, you might have to yield
to a situation in order to survive.

22 Someone in authority is going to turn you down
on a request that you consider as being impor-
tant. It's not the time to ask favors.

22 This week, you'll find it hard to see beyond your
own existence. Don't be disappointed if an
associate won't fit into your design of things.

22 The urge to change a love pattern or put a mem-
ber of the opposite sex to the "acid test," shows
in the chart for most Libraians. You are on your
own!

21 In one form or another, the weather will trigger
a subtle chain of events—that will change your
present goal in life. The change will be for the
best.

IUS 21 We are never a tyrant, according to our own
light. So, it would be a good idea to think twice,
before you tell someone what to do.

N 19 Things that happened several years ago will
haunt you. The past will intrude into the future,
during this week's cosmic cycle. Don't make the
same mistake.

S 18 In one way or another, you'll be preparing for
an event that you've planned for the Spring.
Generally, this week, you'll be making plans for
the future.

r. 20 Some Pisceans will attempt to pick up the
pieces from a broken romance...and start over
again. Remember, things are never the
same—they'll get better or worse!
