# your week ahead BY DR. A.W. DAMIS

Forecast Period: March 16 to March 22

### ARIES

Mar. 21-Apr. 19

For those under your sign, so inclined: Don't hoist your sails for the first romantic wind that blows your way. Proceed with affairs of the heart, cautiously!

### TAURUS

Apr. 20-May 20

Poke up the fire! Apparently, your job task or project is being neglected. This cosmic cycle, you might relax because of an associate's over optimism.

### GEMINI

May 21-June 20

Mentally, most members of your sign are sharply honed. It's not likely that a competitor will throw you off of your objective. Insist on having your own way.

### MOONCHILD

June 21-July 22

Unexpected duties are now blooming in full glory. Don't throw yourself into an unplanned situation. You might be committing yourself to an impossible schedule.

### LEO

July 23-Aug. 22

One of the best, worst things you'll do is...stretch the truth a little. It seems as though an exaggeration will function as well as the facts, this week.

### VIRGO

Aug. 23-Sept. 22

Well, now! During this particular cosmic cycle, you'll receive little thankful gestures and, perhaps, a token of appreciation...it's about time, you'll see!

### LIBRA

Sept. 23-Oct. 22

Hold up on that phone call or letter. A new turn of events shows in your chart; a situation will change, suddenly. Delay distant communications, this week.

### SCORPIO

Oct. 23-Nov. 21

Most members of your sign are, now, prone to over indulgence. So, watch your diet and rest. Otherwise, a chronic ailment will flare up.

### SAGITTARIUS

Nov. 22-Dec. 21

You don't be as impressed with a member of the opposite sex, as you used to be! An event will enable you to see things as they, really, are!

### CAPRICORN

Dec. 22-Jan. 19

Look out for an associate who'll attempt to lure you into a plot against a superior. Don't pull somebody else's chestnuts out of the fire.

### AQUARIUS

Jan. 20-Feb. 18

Being entirely too free with advice, during this cosmic cycle, could work against you. A surprising twist in your present situation, demands silence!

### PISCES

Feb. 19-Mar. 20

Stellar patterns warn against: Going into the next 7 days with misleading data. Actually, you're standing on a trap door of false facts and figures.
