cores: High Singles for the week: K. Thortien-

week ahead BY DR. A.W. DAMIS

Forecast Period: April 13 to April 19

This week, the past will intrude into the future. In other words, your old habits and attachments will keep you from making any changes in your job, task or project.

There's a strong possibility that you'll participate in social activities that lead into a questionable friendship. In short, it's not a good time to make friends.

Believe it or not. This week, most members of your sign, of all things, will be over ambitious. Apparently, your loved ones will be neglected.

It seems as though you'll discover a secret that simply cannot be shared with anyone. Also, in one form or another, you'll receive outside help.

The shortest distance between two points isn't always a straight line. A sailboat is an example. Meaning? Try tact and diplomacy with an associate.

A mischievous member of the opposite sex might throw your budget off tilter. It seems as though you'll try to "balance" emotions with money.

Strange! A mistake, committed by someone close by, will in the long haul, snowball into a lucky break... for you! You'll do no wrong this week.

Showdowns, ultimatums and "or else" seem to crisscross your chart. See that smoldering animosity does not break into open warfare, among your associates.

You need problems with the opposite sex like a moose needs a hat rack. Nonetheless, your self centeredness might disturb your mate or similar alliance.

This week, many members of your sign will be holding bad cards. Anyway, your chart shows that a good "bluff" will put your job, task or project back into the game.

Those under your sign, unattached, are heading toward a new romance. Whatever you do... arm yourself with past experience! Also, double your guard against gossip.

Changes you have long had in mind, concerning the opposite sex, can now be introduced with a minimum of adjustment. Stellar patterns give you the green light.
