## week ahead BY DR. A.W. DAMIS

Forecast Period: April 20 to April 26

19 You might encounter financial problems at the beginning of this cosmic cycle. Don't panic! Avoid borrowing or lending monies, things won't be as bad as they seem.

20 Good communications seem to be in the general scheme of things. Your persuasiveness is now reaching its peak. Look for teamwork and favors amid your associates.

20 You're prone to argue, simply for the sake of arguing. Don't make the mistake of challenging an undebatable fact that's connected with your job, task or project.

D 22 Self improvement might bug you, during this week's cosmic cycle. Actually, members of your sign will become objective in the pursuit of domestic happiness.

22 Here we go, Leo! It's a case of a bird in the hand being worth more than two in the bush. You're inclined to become unrealistic about your financial status.

. 22 Ideal conditions for signing contracts and making agreements, show in your chart. In other words, alliances or partnerships formed during this cosmic cycle—will be fruitful.

22 Raw edged nerves and a feeling of insecurity, with the opposite sex, will pass quickly. Look forward to closing this week's cosmic cycle with things going your way, favorably.

21 You're not one who takes romantic gestures, lightly. Nevertheless, you must dismiss certain overtures sent out by a member of the opposite sex.

US 21 You won't perform well as a teamworker. According to this week's stellar influence, your gains will be based on individual accomplishments.

N 19 Outside pressures and commitments might cause problems at your home base. It would be advisable to postpone any activities that take up this week's evenings.

18 Don't make the mistake of overvaluing a "get rich scheme" that is presented to you by a previously reliable associate. Meaning? Someone's good intentions might harm you.

. 20 If you're looking for trouble, you'll find it. Be, especially, careful not to provoke a superior or someone in authority; including the opposite sex.
