Week ahead BY DR. A.W. DAMIS

Forecast Period: April 27 to May 3

19 Many favors are heading your way. There's a hidden disadvantage in having things come, too easily. You might misread the motives behind your helping "friends."

20 Most members of your sign will be working on their physical appearance, in order to appeal to the opposite sex. Also, Taurians will become, emotionally, sensitive.

20 You'll receive overtures that you would do well to ignore. Otherwise, you'll be led down the garden path by a fast talker that wants to give you the world.

D 22 Solitude, seems to be in the scheme of things. At least, you should avoid social activities. The reason? You'll be imposed upon, heavily.

22 Your project might begin to lag. Furthermore, tricks with the opposite sex might not be too good. An older person holds the solution.

22 Someone wants to lend you a hand and give you some "good" advice; like the guy who taught his neighbor's parrot to say, "here kitty, kitty, kitty!"

22 You, Libra, without conscious design, might become part of someone else's love triangle. Take care, your own relationship with a member of the opposite sex might be affected, adversely.

21 Keep busy with tasks at hand. Apparently, you're inclined to spend too much time on thoughts about members of the opposite sex. Anyway, new romantic ventures will be unproductive.

US 21 Remember, only, under certain conditions can a "little white lie" function as well as the truth. This week, someone will challenge your veracity and accuracy.

N 19 Your hand holds the jackpot lever. All you need do is—pull! Big breaks are heading your way, whether you take advantage of an opportunity—is up to you.

18 There are times when you lack a sense of logic, totally. As you might have guesses, this week happens to be one of those times. Please, control your emotions.

. 20 Good, in fact, excellent emotional stability dominates this week's cosmic cycle. If necessary, you'll take sarcasm and criticism, well. Incidentally, your attitude might surprise the opposite sex.
