## week ahead BY DR. A.W. DAMIS

Forecast Period: May 11 to May 17

It's not easy to explain. Your chart however in-  
 dicates: Arguments and jewelry. In other words,  
 an argument and a jewelry article will be connec-  
 ted in one way or another.

Whether or not you like it, you're going to get a lot  
 of advice. One thing you should keep in mind:  
 Don't exchange any secrets or—you'll be sorry.

The way you are going, you won't win any trophies  
 for popularity. Actually, you're prone to meet an  
 associate's gratitude with sarcasm. Put yourself  
 in the other person's shoes.

This week remember, silence is golden. Accord-  
 ing to your chart, your immediate environment  
 will become a "gossiper's paradise." Confiden-  
 tially, you'll hear a few "goodies."

A very sophisticated conversation with a member  
 of the opposite sex, shows in your chart. Bluntly,  
 you'll be in the mood to go through mental  
 acrobats.

Your accomplishments, this week, will make you  
 the center of attention, and the topic of conver-  
 sation. All in all, things should go well.

As corny as it might sound, planetary alignments  
 advise: Try to mind your own business; don't  
 become involved in a lover's quarrel.

It's time to cast your lot with an affluent person.  
 You'll get the opportunity through the mail; a  
 phone call or a third party.

Stop prancing around with a chip on your shoulder.  
 Your heading for trouble in a couple of directions:  
 Your associates and your loved ones.

You're weening the twin wolves of disaster, over-  
 confidence and arrogance. Try a big, big, dose of  
 humility... it's like magic, you'll see!

Here's a strange warning. Keep alert. At the very  
 point of becoming tired and bored—you'll face a  
 critical test. The rest is up to you, of course.

Keep valuables and personal articles under lock  
 and key. Furthermore, it's not a good time to  
 borrow or loan. And too, read all documents  
 ...before you sign.
