

APPROXIMATELY 9 THOUSAND TONS OF PULP STOCK PILED AT K.C.

Jones

is wondering just why all the bales being stock piled on the Mill Road car parks at the Mill. Each day and more bales being covered and

as it that Kimberly-Clark is going down, and on the strenght of a second at the same thing I talked with Mr. Puttock, President of Kimberly Clark. He informed me that the reason for stock piling pulp is not to close down but an effort to closing the Mill. He stated that mills do close down, but Kimberly is still producing at full rate, so as long as everyone working. It has to be stock piling as the time goes on, sales will be better.

Puttock announced that they have accumulated more than they had anticipated, so they have to consider slowing down or closing only the pulp department for a very short period.

Shipment should start being shipped in the future by rail.

End of my talk with Mr. Puttock he

suggested a 'Hot Line' or similar arrangement be made, so that anyone who has any questions to ask about any of Kimberly Clark's work or progress can get in touch with him direct, and have a straight forward and honest answer in the hopes that once again the residents of Terrace Bay and Schreiber can have returned confidence in Kimberly-Clark.
