## your week ahead BY DR. A.W. DAMIS

Forecast Period: June 15 to June 21

**ARIES**  
Mar. 21-Apr. 19

Beware! According to your chart, mischief that you have scheduled for someone else, will in fact—happen to you! Try to observe the golden rule, this week, at least.

**TAURUS**  
Apr. 20-May 20

Many under your sign will discover that: A member of the opposite sex, who should not, will toss subtle overtures your way. No question, stay in bounds, is a must!

**GEMINI**  
May 21-June 20

Get into your harness, Gemini! Again, there's a heavy workload coming your way, disguised as a special task that requires a particular aptitude.

**MOONCHILD**  
June 21-July 22

Stellar patterns suggest that a good first impression is, now, in order. Apparently, the "impression" will involve closing the door on one project, while opening another.

**LEO**  
July 23-Aug. 22

Being reasonable, this week, won't be one of your strong points. It's nearing that time again...you'll put a member of the opposite sex—to the "acid test."

**VIRGO**  
Aug. 23-Sept. 22

At one time or another, we all go through it. But, this week, it's your chance. Meaning? You'll be given credit or blamed for something you did not do.

**LIBRA**  
Sept. 23-Oct. 22

It's not that things have been boring. Nonetheless, affairs of the heart will take a rather surprising twist, for the better, naturally.

**SCORPIO**  
Oct. 23-Nov. 21

Keep your long term plans under wrap. According to the aspects in your chart, a female is determined to betray you in a rather subtle way.

**SAGITTARIUS**  
Nov. 22-Dec. 21

There are times when intuition, E.S.P. or whatever you want to call it—can do more harm than good. You'll find out what we mean, this week.

**CAPRICORN**  
Dec. 22-Jan. 19

Prevailing stellar patterns indicate that most members of your sign will be in conflict with the opposite sex. If you are the exception—look for favors with strings attached.

**AQUARIUS**  
Jan. 20-Feb. 18

Strange as it might sound, ancient ruins or antiquity will play an important role in this weeks events. Also, there's a possibility that you might duplicate a past mistake.

**PISCES**  
Feb. 19-Mar. 20

Most members of your sign will give serious consideration to how far they've come along in life. A cloud of meditation and deep thoughts hovers over your head.
