STORK CLUB: Congratulations to Mr. and Mrs. Ray Belliveau on the arrival of a daughter on Monday, July 24. Mother and daughter both doing well.

your week ahead BY DR. A.W. DAMIS

Forecast Period: August 3 to August 9

ARIES
Mar. 21-Apr. 19

Well, now! It seems as though many members of your sign will receive overtures from someone who is unattached. Actually, it's not anything to worry about.

TAURUS
Apr. 20-May 20

According to your chart, a "gut feeling" concerning money or an investment...should pay off. What is more, if circumstances allow, look into real estate.

GEMINI
May 21-June 20

This forecast, of course, doesn't apply to all members of your sign. Nonetheless, there's a good possibility that a hobby or previous experience will pay off.

MOONCHILD
June 21-July 22

Those under your sign unattached, might find that an old friendship has dropped in value. But, wait! A secret admirer will make a gesture.

LEO
July 23-Aug. 22

Shore up your existing friends; recruit allies and open new social doors. According to the general scheme of things—you'll need moral support in a new venture.

VIRGO
Aug. 23-Sept. 22

Stellar patterns indicate that you've complicated the relationship existing between you and the opposite sex. Do you want to pick up the pieces and start all over again?

LIBRA
Sept. 23-Oct. 22

This cosmic cycle eliminates several of your personality flaws, that's good! Most important, you're going to be closer to your mate, or similar alliance.

SCORPIO
Oct. 23-Nov. 21

The twin wolves, indifference and carelessness are now stalking your job, task or project. Take advantage of extra time to complete this week's schedule.

SAGITTARIUS
Nov. 22-Dec. 21

Good emotional balance and a surge of ambition, shows in your chart. Things look good, especially with your job, task or project.

CAPRICORN
Dec. 22-Jan. 19

There has been better weeks, please understand. This particular cosmic influence triggers a streak of emotional depression, for no apparent reason—it'll pass quickly.

AQUARIUS
Jan. 20-Feb. 18

There are times when you'll over value one thing and ignore another. This week, however, the looser you are with a buck—the greater will be the return. Strange, indeed!

PISCES
Feb. 19-Mar. 20

Mischief, this week, is on the march. It's highly probable that you'll be running up blind alleys—guided by half truths and rumors. Try to avoid gossip, Pisces!

wild game. It seems that a young bear, of 200 pounds, had been bothering them frequently for the past couple of weeks. So about 5 a.m. the other day Hugh Brophy was awakened by some noise and thinking it was some of the boys from one of the other cottages having a little horse-play, he arose and sought refuge in one of the other cottages. A short while later, Ray Blanchard was awakened by a similar noise and upon looking out his window, came face to face with Mr. Bear. Ray exercised his lungs to good advantage and "Little Joe" Campbell came a-running with his trusty carbine. Calmly giving instructions to Ray to lie down on his bed and to keep his head out of his line of fire, he took a steady bead and shot Mr. Bear right thru the window. Upon checking several manuals on the hunting of wild game we find that there have been several Hundreds of bears shot in the last fifty years, and each shot in a different place, but this is the first one on record to be "shot in the window".
