your week ahead BY DR. A.W. DAMIS

Forecast Period: August 31 to September 6

ARIES
Mar. 21-Apr. 19

Mentally, you might be "fuzzy." Stellar patterns are not too favorable for decision making. Also, there's the possibility of being error prone. Relax and put a major project aside.

TAURUS
Apr. 20-May 20

Shape up, Taurus! You're becoming too involved with long term plans. Want to know the truth? You're, simply, looking for an excuse to put urgent tasks aside.

GEMINI
May 21-June 20

This week finds you in a set of circumstances requiring help from a "not too friendly" source. It's advisable to show your most personable traits.

MOONCHILD
June 21-July 22

You could be heading toward a week of financial mischief. Although you are not a patron of "get rich schemes," a tempting proposition, in one form or another, is possible.

LEO
July 23-Aug. 22

It would be wise to adjust your thoughts of the future...to the wants of your mate or similar alliance. Beneath a veneer of being content—trouble is brewing.

VIRGO
Aug. 23-Sept. 22

In your chart, there's no reason for you to have problems, other than those you might create. Things look favorable in most departments of your life. Again, take advantage.

LIBRA
Sept. 23-Oct. 22

There's a special name for someone who welcomes problems. The name or term, however, doesn't fit you. You'll accept a new hardship as a sort of challenge.

SCORPIO
Oct. 23-Nov. 21

For those under your sign, so inclined: There's a choice of becoming physically attracted to a member of the opposite...or displace the relationship with a platonic friendship.

SAGITTARIUS
Nov. 22-Dec. 21

Your hangup for a luxury might backfire. There's a possibility that you'll receive a gift, of sorts. Make sure there's no strings attached.

CAPRICORN
Dec. 22-Jan. 19

A secret alliance is functioning behind the scene. How do you fit into the scheme of things? Hanky panky will affect your job, task or project.

AQUARIUS
Jan. 20-Feb. 18

A long distant communication, by phone or mail, is being neglected by many members of your sign. Actually, your procrastination is blocking a series of pleasant events.

PISCES
Feb. 19-Mar. 20

You may be somewhat of a cross patch, this week. First, you'll become enthusiastic about the future...then, you'll take a nostalgic trip down memory lane.
