FEDERAL RIDING CHANGE

All the news media this past week have been advising you of the proposed riding boundary change as suggested by the Election Boundaries Commission.

What this means to us is:

1. That our present federal riding (the largest in Canada) is to be done away with - the west portion being absorbed by the Kenora-Rainy River riding and we being absorbed by the Cochrane riding which extends almost to the Quebec border.

2. The areas known as Beardmore, Geraldton, Long Lac, Manitouwadge, White River, Marathon, Terrace Bay and Schreiber will become part of the Cochrane Riding centered in Kapuskasing.
