

Federal Riding Change - continued

Not only are the roads linking us with these areas second class, but the type of industry in this more eastern area creates entirely different problems than those which we face.

What can be done about it?

A hearing will be held on October 9th in Thunder Bay. Notice to the Boundaries Commission of intent to attend this hearing must be made before 23 days from August 21st.

The councils of Terrace Bay, Schreiber, Marathon, Manitouwadge, Long Lac and Geraldton met in Geraldton on August 21st and approved in principle the following line of action:

I. That we have representation at the A/M hearing at which we oppose

- a) losing one seat from Northern Ontario
- b) becoming part of the Cochrane riding. Locally it is hoped to have petitions circulated which if you agree, we hope you will sign.
- c) any individual or group who feels strongly on this matter can have representation at this hearing.

W.R. Bray, Reeve
Township of Terrace Bay.

A MAN OF ACTION

Mr. Gino Caccamo, of Schreiber, District Justice of the Peace, and long-time Tory was nominated Sunday night at Nipigon, to run as Progressive Conservative Candidate for the Lake Nipigon Riding.

In the Speech of nomination by, Mr. Bob Spadoni of Schreiber, which was seconded by Mr. Joe Marino, businessman of Geraldton, the

following facts about Mr. Caccamo were put forward.

He was born and raised in Schreiber, and received his elementary and High School education there.

His grandparents were among the first settlers on the North Shore of Lake Superior.

He has attended every nomination meeting of the P.C. Association since 1945 and on two occasions he had allowed his name to stand as a candidate, but has stepped down in favour of others.

He spent six years in the Armed Forces and returned to the family business after the war - and became Manager and subsequently President.

In 1972 he sold out his interest in the business and went to work for the L.C.B.O.

On the local level - he has served four years on the Municipal council and nine years on the Hydro Commission, the last six years he has been Chairman of that Commission, and is currently serving a 2nd term as President of the Municipal Electric Association of Ontario.

He has served three years as President of the Royal Canadian Legion - has held office in the Lions club and has been associated with the Kinsmen for over twenty years. He has also been active in the Chamber of Commerce.

He has the zeal and aggressiveness necessary to run a good campaign and bring you action at Queen's Park.

Forest Factory

Think of a forest as a cellulose factory that uses solar energy to convert water, air, soil, and nutrients into a renewable and biodegradable industrial resource.
