25 YEARS AGO - SEPTEMBER 7, 1950

Advice has been received that approval has been given for the construction of a new modern hospital to be erected in the Townsite. The new structure will be located just south of the junction of Kenogami Road and Cartier Ave., just east of the hotel. The new building when completed, will be ultra modern in every respect and will accommodate in excess of 20 beds. No effort will be spared to make this new building a real credit to this attractive little Community of ours. The design is now complete and it is expected that construction will start early next spring.

On Saturday, August 27th, Stan Hodgkiss and Sid Naylor left Terrace Bay for Gravenhurst, Ontario. Stan Hodgkiss consented to send a report back to this paper on the trip from Terrace Bay to Sudbury. Following is that report: Left Terrace Bay at 9:30 a.m. Saturday, August 27th, arrived White River Business section 11:15 a.m. Arrived 1st barrier 11:50 a.m., which is three miles out of White River. There were thirty cars lined up when we arrived there. They let us through at exactly 12 noon and the car lineup didn't present any problem as we soon were spread out. There were 16 U.S.A. cars and two from Manitoba in the first 30. Second Barrier at Mileage 160 from Terrace Bay but no delay here. The road is very good. The few short stretches that are now being paved are gravelled and well graded. Wawa is not directly on the new road so we did not see it but the turning off point is 169 miles from Terrace Bay. At Agawa Park, 224 miles from Terrace Bay, the old section of road starts. This is fair - but as you reach Batchawana Bay the road is only fair - some construction and rest of road is old - potholes and bumps. Arrived at Soo - 4:00 p.m., so with half hour lost at White River, running time was six hours for 316 miles to downtown Soo. There are only a couple of isolated gas stations from White River on but starting at Batchawana Bay there are several. Arrived at Sudbury 9:00 p.m., after stopping for a meal at the Soo for one hour. There are a number of good motels all along the road between the Soo and Sudbury.

Mrs. Alice Farrow walked off with the Wills Nursery Trophy Saturday, August 27th at the Sixth Annual Flower and Vegetable Show sponsored by the Terrace Bay Horticultural Society.

your week ahead BY DR. A.W. DAMIS

Forecast Period:
September 14 to September 20

ARIES
Mar. 21-Apr. 19

Those little expenditures are throwing your budget off balance. Skip a "bargain," this week. Tighten up on your purse strings.

TAURUS
Apr. 20-May 20

Something peculiar is going on, to put it mildly. It seems as though an event that takes place at a distance—will affect your mate or similar alliance.

GEMINI
May 21-June 20

You've heard this before: The more light in your eyes, the blinder you become. So, review your relationship with the opposite sex. You're in for a surprise.

MOONCHILD
June 21-July 22

Your chart warns against speculative transactions. Furthermore, it's not wise to either loan or borrow money. You might review your check book, and keep the balance in mind.

LEO
July 23-Aug. 22

There's not much to tell that you don't already know. Because of your own pride—you'll find yourself engaged in an unproductive "cat and mouse" game.

VIRGO
Aug. 23-Sept. 22

Strange happenings and temptations might encourage you to risk areas that are unfamiliar. Don't be lured by a promise of exciting and new experiences.

LIBRA
Sept. 23-Oct. 22

Sorry! But, this week, you happen to be one of those people who want to tell the truth—at someone else's expense. There are things that should not be discussed.

SCORPIO
Oct. 23-Nov. 21

There's a possibility that persons in authority will be in your environment, this week. Some changes will be made, and there's nothing you can do about it.

SAGITTARIUS
Nov. 22-Dec. 21

This happens to be one of those cosmic cycles when you'll enjoy hard work. Why? Well, you are going to see some tangible and pleasing results.

CAPRICORN
Dec. 22-Jan. 19

A series of subtle events that culminate into a jolting experience, certainly won't make you the most pleasant person to be near. Anyway, you'll come out of it a little wiser.

AQUARIUS
Jan. 20-Feb. 18

According to your chart, most members of your sign will undergo a mysterious experience. Which, incidentally, will never be explained. Don't worry about it!

PISCES
Feb. 19-Mar. 20

You'll be in a tight spot. Nonetheless, you'll come up with some answers that will amaze, even you. Trapping you, this week, is not possible.
